

Oxyfresh®
WE ♥ NUTRITION

WHY WE'RE DIFFERENT

OXYFRESH NUTRITIONALS ARE A GAME CHANGER

Reality check. Today's whole food isn't what it used to be. We can't get our nutrition from whole foods alone.

Food for thought: we have 38% less nutrients in our fruits and veggies, according to a study in the Journal of the American College of Nutrition, which compared the nutrient values of 43 common crops from 1950 vs. 1999.

So why is today's whole food more like "halfies"?

Nutrient depletion from the soil. It's robbing our fresh foods of vital vitamins and minerals — nutrients we need to stay healthy. It's estimated that 92% of Americans have at least one vitamin or mineral deficiency. Our bodies need supplementation to fill in the nutritional gaps, and that's where Oxyfresh comes in.

We fill in the nutritional gaps with our scientifically proven blends of super fruits, antioxidants, vitamins and minerals in an easily absorbable form that will drive deep into your cells for full results you can actually feel.

WHY WE'RE DIFFERENT

Oxyfresh started the way all great things start:

We had an idea. It was time to reinvent nutritional supplements. We knew there had to be a better way ...

Unfortunately, because of the lack of regulation, most nutrition products are formulated with artificial ingredients and fillers or don't have enough of the featured ingredients to feel or notice a difference. It's profit before effectiveness.

Oxyfresh Nutritionals were born from the idea that real nutrition doesn't need to cut corners. That healthy and happy should be the new normal ... for everyone. That your nutritional products should work just as hard as you do.

That's why our formulas are made with only the best nutrient-rich ingredients that nature has to offer ... ingredients you and your family can always feel good about.

Ingredients that deliver exactly what they say they do. Every time.

That's our promise.
