## Our Unique Formula

Our proprietary formula with Oxygene® and Fresh Air® quickly removes all the not-so-fun byproducts pets leave behind without using any harsh fragrances.

**Ingredients:** Water, Sodium Xylenesulfonate, Anionic Polymers, Isopropylidenglycerol, Anionic Surfactants, Phenoxyethanol, Caprylyl Glycol, Stabilized Chlorine Dioxide (Oxygene®), Ethylhexylglycerin, Soyethyl Morpholinium Ethosulfate (Fresh Air® Blend), Hexylene Glycol, Trisodium Ethylenediamine Disuccinate, Nonionic Surfactants.

### Anionic Polymers

Anti-deposition agent to keep soils suspended in solution until they are pulled out of the carpet by the vacuum and air movement action. Prevents re-attachment of soil to carpet fiber by forming non-sticky crystal structures.

### Caprylyl Glycol

Paraben and formaldehyde free preservative.

### Chlorine Dioxide (Oxygene®)

Oxygene is an incredible odor eliminator. It works by oxidizing the source of the odor. By breaking down the offensive compound it neutralizes the odor without covering it up with a fragrance.

### Ethylhexylglycerin

Paraben and formaldehyde free preservative.

### Hexylene Glycol

Paraben and formaldehyde free preservative.

### Isopropylidenglycerol

Boosts cleaning performance, holds soils in suspension preventing it from redistributing on substrate.

### Phenoxyethanol

Paraben and formaldehyde free preservative.

### Sodium Lauryl Sulfate

Great at removing oily dirt and reduces resoiling of the material after cleaning.

### Sodium Xylenesulfonate

Boosts cleaning performance, great on soil and degreasing, helps stabilize formula.

### Soyethyl Morpholinium Ethosulfate

Binds to and neutralizes common malodors.

### Trisodium Ethylenediamine Disuccinate

Boosts cleaning performance by binding minerals.
