

Quick Guides | Dental Gels

Core Benefits

Oxyfresh has carefully formulated two very distinct (leave-on) dental gels. These gels offer soothing and concentrated deodorizing benefits, along with unsurpassed versatile tissue conditioning properties not found anywhere else. As with all of Oxyfresh's high-quality dental products, these gels contain no artificial colorings or flavors and are a safe and effective addition to support any periodontal maintenance and hygiene program.

Both gels contain a therapeutic blend of ingredients including aloe vera, chamomile and essential oils to provide the most natural way to alleviate and soothe inflamed tissues, burns, oral wounds and abrasions. Both formulas promote a cleaner mouth, fresher breath and total comfort.

Formula	Dye-Free	Aloe Vera	Essential Oils	Xylitol	Chamomile	Folic Acid	Fluoride (NaF)	Freshens Breath
Super Relief	✓	✓	✓	✓	✓	✓		Oxygene® Zinc Acetate
Fluoride	✓	✓	✓	✓	✓		✓	Oxygene®
