

# Quick Guides | MOUTHWASHES

## Oxyfresh Mouthwash Formulas Are Designed to Be Different

Most mouthwashes have a high percentage of alcohol, along with strong artificial flavors and sweeteners. These ingredients only mask bad breath, providing a false, temporary fix. They also dry out the mouth, which makes bad breath even worse! They're also loaded with colorful dyes for more shelf appeal, which can stain those pearly whites.

Free of alcohol and dyes, each Oxyfresh mouthwash formula is specially formulated with our secret ingredient Oxygene®. This brilliant, gentle and non-toxic ingredient completely neutralizes volatile sulfur compounds (VSCs) on contact, the molecules that cause bad breath. The result? Fresh breath and a healthier smile with every swish.

Formula	Dye-Free	Essential Oils	Xylitol	Fluoride (NaF)	Freshens Breath	Alcohol-Free	Neutralize VSCs	pH Range
Fresh Breath	✓	✓	✓		Oxygene®	✓	Oxygene®	Neutral
Cavity Protection	✓	✓	✓	✓	Oxygene®	✓	Oxygene®	Neutral
Fresh Breath Lemon Mint	✓	✓	✓		Oxygene® Zinc Acetate	✓	Oxygene®	Neutral
Gentle Formula	✓				Oxygene®	✓	Oxygene®	Neutral
Pro Formula	✓	✓	✓		Oxygene® Zinc Acetate	✓	Oxygene®	Neutral
