

Quick Guides | Toothpastes

Core Benefits

Oxyfresh has designed a super-concentrated, distinct blend of ingredients to provide you with three unique formula toothpastes, each delivering targeted benefits and satisfying even the most discerning patients and dental professionals alike.

Each formula is blended with Oxygene®, a proprietary deodorizing ingredient that completely neutralizes VSC's and eliminates odor at its source. Oxyfresh toothpastes provide longer lasting fresh breath protection along with plaque control you can count on. Each provides you with a low-abrasion formula that will protect root surfaces, porcelain, and cosmetic services. Each is blended with essential oils, is dye-free to avoid the risk of staining, and contains no saccharin.

Formula	Dye-Free	Essential Oils	Xylitol	Fluoride (NaF)	Freshens Breath	Low Abrasion (gentle)	Neutralize VSC's	SLS Free
Original	✓	✓			Oxygene®	✓	Oxygene®	
Fluoride	✓	✓		✓	Oxygene® Zinc Acetate	✓	Oxygene®	
Power (lemon-mint)	✓	✓	✓		Oxygene® Zinc Acetate	✓	Oxygene®	✓
