SOOTHING AND DESENSITIZING

Our exceptional, fast-acting **Super Relief Dental Gel with fluoride** is perfect for anyone who suffers from dry mouth, chronic bad breath (halitosis), periodontal disease, tooth sensitivity, canker sores, irritated tissues, etc.

We started with our exclusive ingredient Oxygene® and infused it with fluoride for not only cavity-fighting abilities, but also desensitizing benefits. We added specialized, natural ingredients like aloe vera, chamomile and essential mint oil. It's specifically formulated to provide moisture and soothing relief people can count on.

- 🦷 **Promotes Healing** – Unrivaled at neutralizing bacteria and hydrating the tissue to help promote healing.
- 🦷 **Provides Moisture** – Specialized ingredients that help condition and provide moisture to dry and irritated tissue.
- 🦷 **Helps Tooth Sensitivity** – Helps to desensitize sensitive teeth and gums.
- 🦷 **Soothes Gums** – Works quickly to soothe sensitive gums. It's perfect for new dental implants or after a visit to the dentist.
- 🦷 **Fights Cavities** – The ultimate fluoride formula to help protect smiles from cavities.
- 🦷 **Naturally Sweetened with Xylitol** – Xylitol has been shown to fight the formation of plaque and bacteria.
- 🦷 **Essential Oil** – Infused with a natural essential oil, leaving smiles feeling completely fresh and clean without an aftertaste.

IDEAL FOR:

- 🦷 **Dry Mouth Sufferers**
- 🦷 **Orthodontic Treatment**
- 🦷 **Sensitivity**
- 🦷 **Caries-Prone Individuals**
- 🦷 **Those Undergoing Chemo or Radiation**
- 🦷 **At-Home Fluoride Treatment**

CLINICAL APPLICATIONS:

- 🦷 **Extraction Sites** – Insert using monoject-type syringe or place on gauze.
- 🦷 **Crown Preps** – Dip retraction cord prior to insertion for more precise impression.
- 🦷 **Temporary Crowns** – Apply along gum line to enhance healing and alleviate post-operative discomfort.
- 🦷 **During Scaling** – On instrument, carry to depth of pocket.
- 🦷 **Following Scaling, Root Planing or Laser Treatments** – Syringe subgingivally and along gum line for enhanced healing and alleviation from post-operative discomfort.
