

# SAFETY DATA SHEET

**NTS Fast Fulvic™**

**Date of Issue: 24/07/2023**

## CLASSIFICATION OF MATERIAL

Not classified as Hazardous according to Safe Work Australia (GHS)  
Not a Dangerous Good according to the Australian Dangerous Goods Code

## 1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

|                                     |                                                                                                                                                                       |
|-------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Name:</b>                | NTS Fast Fulvic™                                                                                                                                                      |
| <b>UN Proper Shipping Name:</b>     | N/A                                                                                                                                                                   |
| <b>Recommended Use:</b>             | Fertiliser                                                                                                                                                            |
| <b>Company Name:</b>                | Nutri-Tech Solutions Pty Ltd                                                                                                                                          |
| <b>Address:</b>                     | 7 Harvest Road, Yandina, Qld 4561, Australia                                                                                                                          |

## 2. HAZARDS IDENTIFICATION

|                               |                                                                                      |
|-------------------------------|--------------------------------------------------------------------------------------|
| <b>Hazard Classification:</b> | Non-Hazardous                                                                        |
|                               | Not classified as Hazardous according to the criteria of GHS.                        |
|                               | Not classified as a Dangerous Good according to the Australian Dangerous Goods Code. |
|                               | Not classified as a scheduled poison according to NDPSC.                             |

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

| Chemical Name                                | CAS Number | Proportion |
|----------------------------------------------|------------|------------|
| Fulvic Acid Powder                           | 479-66-3   | 5-20%      |
| Proprietary mix of non-hazardous ingredients | N/A        | To 100%    |

## 4. FIRST AID MEASURES

|                              |                                                                                                                                                                                                         |
|------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Ingestion:</b>            | Rinse mouth with water. Do not induce vomiting unless advised to do so by medical personnel. Give plenty to drink provided patient is conscious. Seek medical advice.                                   |
| <b>Eye:</b>                  | Immediately rinse with plenty of water for at least 15 minutes. Hold eyelids apart to ensure rinsing of the entire surface of the eyes and lids with water, if irritation persists contact a physician. |
| <b>Skin:</b>                 | Remove contaminated clothing and wash with soap and water. If symptoms such as redness or irritation occur, consult a physician.                                                                        |
| <b>Inhalation:</b>           | Remove to fresh air. Get medical attention if irritation occurs or breathing difficulty develops.                                                                                                       |
| <b>First Aid Facilities:</b> | Normal washing facilities.                                                                                                                                                                              |
| <b>Advice to Doctor:</b>     | Treat symptomatically.                                                                                                                                                                                  |

## 5. FIRE FIGHTING MEASURES

|                                             |                                                                                                                                                    |
|---------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Flammability:</b>                        | Non-flammable. May decompose on heating to emit oxides of carbon. Fire fighters recommended to wear SCBA.                                          |
| <b>Extinguishing media:</b>                 | Water spray, dry agent (carbon dioxide, chemical powder). Keep containers cool with water spray.                                                   |
| <b>Hazchem Code:</b>                        | N/A                                                                                                                                                |
| <b>Precautions in connection with fire:</b> | Clear area of all non-emergency personnel. Stay upwind. Eliminate ignition sources. Contain run-off to prevent entry in water or drainage systems. |

## 6. ACCIDENTAL RELEASE MEASURES

|                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|--------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Emergency procedures:</b>                                 | Clean up spills immediately. Increase ventilation.                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Methods and materials for contamination and clean-up:</b> | Wear protective clothing when cleaning up major spills. Soak up spilled product with absorbent non-combustible material such as sand or soil, collect and transfer to a suitable labelled chemical waste container and dispose of promptly. Do not contaminate streams or waterways. Wipe up with inert materials and place in labelled containers for waste disposal. Dispose of in compliance with local, state and federal regulations. |

## 7. HANDLING AND STORAGE

|                                       |                                                                                                                                                                                                            |
|---------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Precautions for safe handling:</b> | Avoid contact with eyes and skin, do not inhale spray mist. It is recommended to wear personal protective equipment as outlined in section 8. Prohibit eating, drinking and smoking in contaminated areas. |
| <b>Storage:</b>                       | Keep out of reach of children. Store in a cool, dry area in a sealed container. Do not store in prolonged sunlight.                                                                                        |

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

|                                       |                                                        |
|---------------------------------------|--------------------------------------------------------|
| <b>National Exposure Standards</b>    | None established. TWA for dusts = 10 mg/m <sup>3</sup> |
| <b>Biological Limit Values:</b>       | None established.                                      |
| <b>Engineering Controls:</b>          | None established.                                      |
| <b>Personal Protective Equipment:</b> | Gloves, safety glasses. Dust mask if dust is present.  |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

|                               |                   |
|-------------------------------|-------------------|
| <b>Appearance:</b>            | Brown liquid      |
| <b>Odour:</b>                 | Mild, citrus      |
| <b>pH:</b>                    | 3.5-4.5           |
| <b>Flammability:</b>          | Not combustible   |
| <b>Solubility in Water:</b>   | Fully miscible    |
| <b>Lower Explosion Limit:</b> | No data available |
| <b>Upper Explosion Limit:</b> | No data available |
| <b>Specific Gravity:</b>      | 1.06              |
| <b>Conductivity:</b>          | 20-40 mS/cm       |
| <b>Melting Point:</b>         | No data available |
| <b>Boiling Point:</b>         | No data available |
| <b>Vapour Pressure:</b>       | No data available |
| <b>Evaporation Rate:</b>      | No data available |

## 10. STABILITY AND REACTIVITY

|                                                      |                                               |
|------------------------------------------------------|-----------------------------------------------|
| <b>Stability:</b>                                    | Stable under normal conditions of use.        |
| <b>Hazardous Reactions &amp; Materials to Avoid:</b> | Hazardous polymerization will not occur.      |
| <b>Hazardous Decomposition Products:</b>             | Limited evolution of carbon oxides if burned. |

# SAFETY DATA SHEET

**Date of Issue: 24/07/2023**

## 11. TOXICOLOGICAL INFORMATION

|                                                                   |                                                                                         |
|-------------------------------------------------------------------|-----------------------------------------------------------------------------------------|
| <b>Acute Toxicity:</b>                                            | No LD <sub>50</sub> data available. May cause gastro-intestinal discomfort if consumed. |
| <b>Skin:</b>                                                      | No data available. May cause irritation after prolonged or repeated exposure.           |
| <b>Eye:</b>                                                       | No data available. May cause irritation.                                                |
| <b>Respiratory or skin sensitisation:</b>                         | No data available. Breathing spray mist may cause respiratory irritation.               |
| <b>Germ cell mutagenicity:</b>                                    | No data available.                                                                      |
| <b>Carcinogenicity:</b>                                           | No data available.                                                                      |
| <b>Reproductive toxicity:</b>                                     | No data available.                                                                      |
| <b>Specific Target Organ Toxicity (STOT) single exposure:</b>     | No data available.                                                                      |
| <b>Specific Target Organ Toxicity (STOT) – repeated exposure:</b> | No data available.                                                                      |
| <b>Aspiration Hazard:</b>                                         | No data available.                                                                      |

## 12. ECOLOGICAL INFORMATION

|                                   |                   |
|-----------------------------------|-------------------|
| <b>Ecotoxicity:</b>               | No data available |
| <b>Persistence/Degradability:</b> | No data available |
| <b>Mobility:</b>                  | No data available |

## 13. DISPOSAL CONSIDERATIONS

|                         |                                                                                                                                                                                                                                                                                                                 |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Disposal Method:</b> | Where possible, product should be used for its intended purpose including the rinsings of the container. Dispose of in accordance with all local state and national regulations. Do not discard into drains or waterways.                                                                                       |
| <b>Container:</b>       | Triple or preferably pressure rinse containers before disposal. Dispose of used container in accordance with all local and national regulations. Recycle containers if possible (replace cap and return cleaned container to recyclers or collection point). Empty containers and product should not be burned. |
