INSTRUCTIONS

Shake or stir well before use. Where higher water rates are required for good foliar coverage, do not exceed maximum product rate per hectare. Sensitive foliage or plants should be test sprayed prior to full scale application. Ensure suitable spray conditions (e.g. temperature, humidity, wind-speed), prior to foliar application.

Compatibility and/or performance cannot be guaranteed when combined with other products. Jar test for compatibility and spray test on small area before wide-spread use.

IMPORTANT

This product is not registered in Australia for use with agricultural chemicals including insecticides, herbicides and fungicides.

Note: Oil can become rancid if left in sunlight for extended periods. There is a risk of foliage burn if the application rate is exceeded.

STORAGE & HANDLING

Store in a cool dry area out of direct sunlight. This product has been tested to store safely down to 10°C. Do not pre-mix or store in diluted form. Seal lid/cap immediately after use.
