

Installation: Pivot-EZ RHINO Sewer Compartment

Installer: David Drago

Unit: 1999 NuWa Hitchhiker 31BWTGPRLTD

Bryan,

Joe (the installer) received and sent a picture of install. He said great choice and it is really sturdy easy to install.

I should be picking up my 5th wheel around the 27th of August...never thought I would say this but looking forward to using it.

Do I need to purchase any other connections or adaptors?

I live in VA and the unit is in Indiana.

Dave

(There are no additional connections or adaptors needed, BT)
