# 3M™ Cool Arm Sleeves

aqua-X is the world's first cool-to-touch functional fiber that is designed to help you feel cooler immediately upon wearing it.

3M™ Cool Arm Sleeves are engineered to provide:

UV  
protection

High  
absorbency

Quick-drying  
feature

Wind  
resistance

## Soft banding

Seamless soft banding construction minimizes chafing with skin and prevents it from slipping.

## Three-dimensional pattern

The three-dimensional pattern gives it a fashionable feel, differentiating it from other wristlets.

## Seamless Construction

Seamless lining provides a comfortable fit.

## Suitable for a variety of outdoor activities

## Washing Instructions

- Avoid using bleach, strong detergent and softener. Hand wash in warm water (30°C) using a neutral detergent. Do not soak it in detergent for more than 10 minutes or boil.
- Avoid scrubbing the sleeve too hard as it may lead to pilling.
- Separate white colored clothing from dark colored one before washing and dry them in a shaded area.
