

GOGGLE RING/BAND CLIPS

ALG-A-5200

Rubber Goggle Ring for Helmets

- Attaches **without** use of helmet accessory slot
- Replaces the headband** on your goggle and provides a more secure attachment to the helmet for quick access with a streamline, low profile design
- Design is suitable for use with helmets that **do not** have a curved lip or rain channels running along the bottom edge of the helmet (e.g. Bullard S61, Bullard S62, MSA 475358)
- Works with other banded accessories such as headtorches
