

Impressive Performance in an Attractive, Wireless Control

The Jandy Pool Digital Assistant (PDA) brings the power and flexibility of our award winning AquaLink RS control system to the palm of your hand. Rugged yet attractive and designed for use in an outdoor backyard environment, the PDA packs pool and spa control into an easy to use, waterproof, handheld remote. Imagine the convenience of having extensive control of lighting, water features, cleaning, sanitizing, programming of equipment activation and water temperatures always at your fingertips. The PDA packs a palm full of power!

Jandy's next generation, wireless pool and spa controller is here!

THE ULTIMATE IN CONVENIENCE

Enjoy wireless command of your backyard paradise at your fingertips. Sitting pool side, relaxing in the spa or lounging in a hammock — control is never far away.

ENERGY EFFICIENT PUMP CONTROL

Jandy Control Systems manage most brand Variable Speed/Flow Pumps allowing programming of up to eight different speeds for optimum filtration operation with tons of energy savings.

THE ULTIMATE IN FEATURES

Turn on lights, activate your chlorine generator, change the temperature, set your water features in motion, control multiple speeds of a pump, even program your settings without ever getting out of the water.

THE ULTIMATE IN STYLE

Ergonomic design is easy to use as well as attractive. The AquaLink PDA has many user friendly features like backlit buttons and screen for late night trips to the spa and a slip resistant finish with thumb grips for use when wet.

The Power of AquaLink in the Palm of Your Hand

The Jandy Pool Digital Assistant (PDA) offers the power of a pool and spa control system in a wireless, handheld remote with the most popular features. Wherever you are, virtually every pool and spa function can be performed from the Jandy Wireless PDA.

NO NEED TO GET OUT OF THE SPA

Utilizing wireless technology, the Jandy PDA has the power and range to control jets, lights, pool to spa switching, pump speeds, temperature settings, water purification and more. All this power at your finger tips while you are soaking in the spa, relaxing in the hammock or lounging in the cabana.

TOTAL CONTROL IN THE PALM OF YOUR HAND

The Jandy PDA features Windows® style menu driven control of all your pool and spa features in an ultra compact, wireless handheld remote that is waterproof and even floats!

COMPLETE CONTROL OF:

- Pool to spa switching
- Filter pump speeds
- Heater control and temperature settings
- Program on and off times
- Yard lights
- Water features and variable speeds
- Pool and spa sanitization levels

The Jandy Pool Digital Assistant is a full-featured, "stand alone" control system, complete with self diagnostics and automatic equipment safety circuitry to protect your equipment. This system will not interface with existing OneTouch systems.

Exclusive 3R Technology — Rapid Response Rate — offers quick response rate and equipment communication, making Jandy's PDA more powerful than ever.

Discover what a wireless remote control can do for your backyard paradise. Jandy's Wireless AquaLink PDA brings complete automation to the palm of your hand.

True Wireless in a Portable Handheld!

Large Display Includes:

- Signal Strength • Battery Charge
- Date and Time • Air and Water Temperatures
- Control of All Features and Auxiliaries

Specifications
