

Zodiac PowerFirst Premium Heat Pump

heating & technology

Overcome the cold reception with a **Zodiac PowerFirst Premium Heat Pump**. PowerFirst sets a new benchmark in pool heating, with class leading performance and energy efficient operation.

Enjoy a comfortable way of life in your own heated pool.

ZODIAC[®]
a better life

PowerFirst Premium Heat Pump Range

Designed to Suit Most Pools

Packed with features these new Zodiac heat pumps will suit a range of sizes up to a large 11x5 metre (55m²) pool and give you the luxury of all year swimming (depending on climate).

Soft Start to Cut Down Power Consumption

Featuring a new 'soft start' to reduce excessive current draw when the unit powers up. This cuts down on power consumption and provides a longer product working life.

Ozone Friendly

All use the ozone friendly refrigerant R410a and are all designed to be the most energy efficient in their class.

All Seasons Reverse Cycle

New D models for all seasons applications. Capable of heating or cooling making them ideal for cold climates that require a heat cycle or hot climates that require a chilling cycle.

KEY SPECIFICATIONS

* requires the Intelli-Heat control

D = All season model, capable of cooling and heating. Efficient operating temperature range between -8 - +38 °C

Zodiac lives in the backyards of Australian families, at home in the pool. Zodiac began and continues with a dedication to innovation and new product development, focused on ensuring a better way of life. Our products deliver solutions to take the hassle out of owning a pool. So, all that's left is for you to enjoy it; to enjoy a better life.

Titanium Condenser with Lifetime Warranty

All models have a lifetime warranty on the solid titanium condenser. This is regardless of water chemistry or the sanitation method used, now that is peace of mind. All other parts have a 2 year warranty (all commercial applications are 12mth warranty only).

Intelli Heat

All are 'Intelli-Heat' ready*, meaning you set the desired water temperature and it will maintain that temperature at any time of the day running completely independent of the filter cycle time.

Super Quiet Operation

The uniquely designed fan with ultra smooth roller bearings ensures super quiet operation, this can be very important with strict council regulations around noise control.
