Your Life. Your Way.

Bathroom Safety

Human Care

Human Care produces and provides mobility solutions for people with special needs. Our products strive to serve as a natural part of life for all users.

Human Care was founded in 1993 and has since created a proud history within patient care. Our 20 years of experience is reflected in a broad selection of premium products, offering high customer value and satisfying every customer need.

Our main product areas are: Bathroom Safety Products, Healthcare Beds, Mobility Aids, Lifting Solutions and Convertible Chairs for people with reduced mobility.

Our headquarters are located in Stockholm, Sweden, with subsidiaries in USA, Canada, Great Britain and Australia. In addition, we collaborate with distributors in more than 20 other countries.

For us, safety, quality and usability is paramount. We constantly strive to safeguard and enhance the highest quality in all our products. In every detail, in every aspect, our products deliver what they promise.

Welcome to Human Care.

Your Life. Your Way.

That is what we have been offering people with reduced mobility for over 20 years. Your Life. Your Way. Our focus is simple. We work for our users. Our products serve to be a natural part of life to anyone who might need them. Meeting that need is what drives and motivates us. Our mission is to improve the quality of care for people with special needs. Being taken care of by someone else – to literally be in someone else's hands – is a special situation. It demands trust, respect, a fine touch and – not least – safety for both user and caregiver.

Our solutions provide reliability, high quality and innovation. With low-maintenance requirements and efficient installation procedures, we provide a state-of-the-art offering for both users and caregivers.

In every detail, in every aspect, our products deliver what they promise.

” *Our mission is to improve the quality of care and freedom of movement for people with special needs* ”

Care and quality

A user of a product from Human Care is a person who feels very confident with the product's quality and reliability. At all times. Every step of the way. The reason behind this is our profound commitment to safety, quality and usability.

Firstly, our products are designed and manufactured to meet the requirement of relevant ISO and EN standards. Secondly, every single product is given extensive attention at every stage of the design process. Thirdly, in developing our products, our design team collaborates with globally leading physiotherapists, creating state-of-the-art products which all share the same ultimate goal: the benefit and enjoyment of their users. Allowing them to live life in the best way possible. Their way.

A safe environment

The bathroom is the one area of the home that can be a concern for anyone. Slippery surfaces and difficulty getting in and out of the tub greatly contribute to the risk of slips and falls. Every year, over 180,000 Canadians fall and injure themselves in just such an environment.

Asking for help can be difficult and embarrassing, especially in the bathroom where daily actions are so personal. Adapting your bathroom into a safe environment not only reduces these risks but helps maintain independence. Step- by-step, product by product, we will help you create the ideal setting to perform your daily hygiene.

Take a seat. Get a grip. Stay safe. Start with products that meet your short term goals and add on pieces as you need them. We will help you design the ideal bathroom just for you. Our products include bathtub safety rails, grab bars, raised toilet seats, and transfer benches, all designed with the user's safety in mind.

Bathroom Safety

Human Care's bathroom safety products provide a sense of security while maintaining comfort and a natural feel in any environment. Designed to ensure hygiene is maintained, our products will not only make your bathroom a safer environment but give you the freedom to perform daily tasks independently and securely.

Transfer Benches

- Completely modular
- Optional soap dish and handle
- Removable seat allows shower curtain/door to close

If mobility is restricted, our LOOK modular series transfer bench (shown) is ideal in helping to safely transfer in and out of the bathtub without fear of slipping or falling. The seat can easily be removed to close a shower curtain/door.

With easy-to-install optional accessories such as a soap dish and handle, this transfer bench features ergonomically positioned drainage holes for consistent drainage of water.

Close the shower/curtain door easily to avoid the dangers of water spilling on the floor.

Modular Accessories

- Fits all LOOK series seats
- High quality materials
- No tools required

Our modular series accessories are made of high quality, durable plastic and fit all modular series products. They feature a secure, snap-in installation that requires no tools.

These products are ideal in modifying your existing bathroom seating as your needs change. Use the small armrest as a short backrest on the small shower seat. Use the soap dish on either side of the large shower seat. The aluminum legs come in two sizes and fit any of the modular seats.

The future is modular

Our modular series of shower seats are the next level in bathroom safety. Pieces can be added or taken away to create the ideal bathroom seating for each individual requirement. Start with a bath seat, add an armrest, back support, soap dish and another seat and you have created a transfer bench!

1. Choose your seat

2. Customize your seat

3. Create a transfer bench

Shower Seats

- Available with or without back
- Ergonomic design
- Optional red handle

These adjustable shower seats have an easy to clean design with specially positioned drainage holes for consistent drainage of excess water and suction cup feet for stability.

They feature holders for a left or right hand-held shower hose, a strong, white blow moulded plastic seat and an optional left or right handed red handle. Part. no: 1465 comes with a comfortable backrest.

Transfer Board

- Convenient, built-in soap rest
- Fits most any tub
- Added stability in and out of bathtub

Designed to assist those unable to lower themselves completely into the bathtub, our stylish bath board has an extra wide seat, an optional bright red handle for added stability when getting into and out of the bathtub, a convenient built-in soap rest with specially positioned drainage holes, and a left or right hand holder for a hand held shower hose.

Its anti-slip rubber pads improve safety without damaging a bathtub's surface. Its footrest assembly is easily adjusted and tightened to securely fit almost any width of bathtub.

Raised Toilet Seats

- Comfortable padded arm support
- Front locking mechanism
- Rotationally moulded

Manufactured under ISO9002, our signature series raised toilet seats are made to the highest standards. They feature a front locking mechanism for easy installation and have a rear anchoring system for maximum stability. Model #1645 is equipped with comfortable padded arm supports well positioned to assist in lowering and rising.

Important facts Rotation moulded products are created when a detergent-like powder is poured into a mould, put into an extremely hot oven and spun very quickly in varying directions. The centrifugal force turns the powder into a liquid that coats the walls of the mould creating an extremely durable, uniform and hygienic product [there are no joints or seams to trap dirt and bacteria].

Part. no: 1640

Part. no: 1645

Part No.	Seat Height	Dimensions (LxW)	Width between Arms	Aperture	Material	Product Weight	Weight Capacity	Moulding	Colour
1640	5" / 12.7cm	16.5" x 15" 41.9cm x 38cm	-	9" x 8" 22.5cm x 20.3cm	Plastic	4.2lb / 1.9kg	300lb / 136.1kg	Rotation	White

Note: Accessories shown are not included with product. Spare parts and retail packaging available.

Raised Toilet Seats

- Two seat heights, with or without lid
- Easily fitted without removing existing seat
- Deep splash guard for hygiene

Our LOOK series ABS plastic raised toilet seats feature a deep splash guard for hygiene and non-slip rubber pads moulded into the adjustment brackets to securely hold the occupant in position. Available in two seat heights, 2" and 4", with or without a lid, these raised toilet seats are easily fitted to the seat without removing the existing seat. With a high weight capacity, the raised toilet seats are a simple way to minimize excessive bending for those with limited mobility.

Important facts: Injection moulded products are extremely durable and require ribs for added support. Because the plastic is injected into the mould at an extremely high pressure, these products are the most symmetrical and most uniform in design.

Raised Toilet Seats

- Three seat heights
- Antibacterial protection
- Gently contoured seats with high weight capacity

These one piece moulded raised toilet seats with antibacterial protection are designed to allow total immersion for cleaning. Available in three seat heights, they are easily fitted to a toilet in seconds. Removal is equally simple.

The gently contoured seats are shaped to distribute a user's weight over a great area that will not only help to hold the occupant in position, but will also be durable enough to cope with the heaviest user. A wide frontal opening allows easy access for personal cleaning.

Toilet Safety Frame

- Two button push release system
- Fits any toilet

Our toilet safety frame is a welcome addition to any bathroom. Compact yet stable, it fits any toilet size as it adjusts in both height and width.

Its unique two push button release system makes storage an easy task. The rust-proof aluminum mounting plate guarantees years of trouble free use.

Bathtub mat

- Fits any size bathtub
- Durable and safe

Our wave design bathtub mat fits any size bathtub discreetly and securely. Made of 100% rubber, it is durable and fold conveniently out of the way when not in use.

Designed with bath seating products in mind, this bathtub mat adds extra security during hygiene.

Part No.	Material	Product Weight	Size	Colour
1355	100% Rubber	2.45lb / 1.1kg	31" x 17" / 78.7cm x 43.2cm	White Wave Design

Retail packaging available.

Bathtub Rails

- Easy to install
- Seated grip position
- Lightweight yet durable

Our series of bathtub safety rails are designed to provide added stability when getting in and out of the bathtub. Manufactured under ISO9002, these safety rails feature an easy-to-use locking mechanism and convenient handle heights allowing for a seated grip position.

Surprisingly easy to install, the steel rails are available in an attractive powder coated white finish and the plastic tub rails in a durable yet lightweight plastic that not only provides stability but assures hygiene with their waterproof construction. Nonskid rubber pads protect the tub wall and provide a sure grip.

Grab Bars

- Provide a sure grip even when wet
- Available in a variety of lengths and shapes
- Hidden mounting system

Our series of grab bars come in a variety of shapes and sizes to offer support and leverage in and around the bathroom. The steel series feature a diamond knurl finish that provides a sure grip even when wet and a rust resistant, triple chrome-plated finish that ensures years of trouble-free use.

Our plastic series are made to the highest quality standards and feature a hidden mounting system with “sure grip” handles. All grab bars come complete with mounting hardware.
