Mr. Chad Murray, President
Quad-State Air Compressor Sales & Service
362 S. Carlisle St.
Greencastle, PA 17225

Dear Mr. Murray:

Over the past three years, the Directorate of Public Works at Letterkenny Army Depot has been assigned the monumental task of renovating and modifying existing buildings and constructing new facilities to accommodate the expansion of mission capabilities in support of the Army's efforts in the Global War on Terrorism and Operation Iraqi Freedom. Many of these projects have included the requirement for installation or expansion of compressed air systems for our industrial shops, and due to the critical nature of the missions we perform, the timely accomplishment of these projects was essential to our ability to provide our warfighters with the materiel and equipment they need in their defense of freedom throughout the world. Through the work you have accomplished here as a prime contractor and subcontractor, you have contributed immensely to our success in modernizing our facilities and meeting or exceeding production schedules.

The excellent working relationship we have developed with you and your staff has produced an invaluable exchange of technical information that has permitted us to develop cost-effective solutions to our compressed air needs. We have found your technicians to be extremely knowledgeable and capable, and your responsiveness at all hours is unparalleled in our experience in the construction and service industry.

Your commitment to excellence in service and workmanship has been a major factor in the success of the Directorate of Public Works in satisfying the growing demands for reliable compressed air systems. I am certain that you will continue to maintain the same high standards of performance in the future. Please accept my sincere thanks for your continued support.

Sincerely,

A handwritten signature in cursive script that reads "James A. Coccagna".

James A. Coccagna, P.E., CEM
Chief, Engineering and Planning Division
