

**RoHS Compliance** - a statement from Josh Ellis, Owner of MakerJuice Labs LLC. (April 15<sup>th</sup>, 2016)

To all our valued customers in the EU:

MakerJuice is pleased to certify that we always have, and will continue to, ship RoHS compliant materials to the EU (Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland).

Signature:  4/15/16

RoHS compliance means that:

- Our suppliers have confirmed the compliance status of their products to us.
- We have implemented processes to document this.
- All materials sold by MakerJuice Labs LLC are RoHS compliant.

What is RoHS? - Reduction of Hazardous Substances compliance is a major effort at MakerJuice Labs LLC. This is driven by Directive 2002/95/EC, "The restriction of the use of certain hazardous substances in electrical and electronic equipment", which deals with Lead, Mercury, Cadmium, Hexavalent, Chromium, PBB (Polybrominated biphenyl), and PDBE (Polybrominated diphenyl ether).
