

## Gas Tanks

---

### GAS TANKS

With CCR's hinged deck lid cover you have easy access to your gas tank and the battery, if you mount it in the bed. CCR offers a 14-gallon tank which fits neatly into the 14" or 20" bed. The gas tank's neck is designed to sit under our bed cover, not extend through it. Made of heavy 14 gauge steel, powder coated & ready to install. Comes with the mounting straps and hardware

NOTE: CCR's gas tanks are laser cut and formed in only 2 pieces and have an internal baffle. They are completely Heli-arc welded in house. The filler neck and sender unit have been repositioned for easier access. The tanks now have threaded bungs on the top for the vent and top pick-up fuel line. Billet O-ring gas cap included.

Roll-over vent valve with hose and fuel pick-up tube **sold separately**.

<b>91614PC</b> • 14 Gallon Gas Tank (30 x 11 x 11 1/2') - powder coated gray	ea <b>\$359.95</b>
