## SECTION 4: FIRST-AID MEASURES

### 4.1 DESCRIPTION OF FIRST-AID MEASURES

In the event of contact with eyes: hold eyelid open and rinse thoroughly but gently with only water for 15 minutes and GET MEDICAL ATTENTION. Do not use any solvents to flush the eye and its surroundings. Liquid glue will sting the eye temporarily. Solidified glue may irritate the eyes like a grain of sand and should be treated by an eye doctor.

In the event of contact with skin: if skin bonding occurs, soak in nail polish remover or acetone and carefully peel or roll skin apart (do not pull).

In the event of ingestion: dilute by drinking large quantities of water. Immediately contact the Poison Control Center or hospital emergency room for any other additional treatment directions.

In the event of inhalation: remove the victim to fresh air. If the victim is not breathing, give artificial respiration, preferably mouth-to-mouth. Call a physician.

## SECTION 5: FIRE-FIGHTING MEASURES
