

4100 TAIL TRUNK MOUNTING INSTRUCTIONS

Carefully place tail trunk onto motorcycle pillion, rack, or rear cowl

Unclip mounting loop straps from tail trunk and fasten to secure mounting points such as rear turn signals and passenger foot pegs

Loosen male ladder lock buckle straps if needed then reconnect the mounting loops to the tail trunk

For transporting smaller loads, we recommend mounting the tail trunk lengthwise and to tuck the ends underneath the bag before tightening straps (see illustration below for reference)

Caution: Recheck all mounting straps before riding to ensure they are securely attached and tightened before riding. Be sure to remove all mounting loops when bag is not in use.

CLEANING AND MAINTENANCE

Chase Harper USA luggage is constructed from high quality industrial grade ballistic nylon that is treated to repel water, dirt and stains, which makes cleaning easy. Clean with mild soap and light-pressure water using a nylon-bristled brush or microfiber cloth. For best results, clean the entire bag, not just the soiled area. Stubborn stains may be treated with Simple Green®, Fantastik®, Woolite®, 409®, or similar cleaning product. Foaming upholstery cleaners made for wool-nylon blend fabrics also work well. After your fabric has been cleaned, spray with Scotchgard® to maintain water, dirt and stain resistance properties.

*Note: When using any commercial cleaning product, follow the manufacturer's directions carefully.

WARRANTY INFORMATION

For peace of mind we offer a lifetime warranty on all of our products. If you need to claim against the warranty, please contact us and we'll guide you through the process. Be advised sun damage is not covered under the warranty.

When sending an item in for repair, please wash the bag prior to shipping. If the item arrives dirty, a \$20 cleaning fee may be applied to the repair. Also, be sure to include a note with the item that states the damage description along with your contact information including phone number, email, and return shipping address so we can send updates on your repair.
