Nothing packs a punch like our new and improved powerful Supervolley 30.

Designed for multiple bouncers and volleyball play on the water, this tramp is a floating court with a serious sporting attitude. Imagine playing volleyball - with bounce! The regulation volleyball is tethered with 4mm bungee so the pace is fast and fun and is perfect for users who are up for a friendly game of volleyball. There are also 2 convenient PVC pockets for storing all of your sporting gear.

Supervolley Technical Features

Duratex™

Commercial grade fabric reinforced PVC material.

Ideally suited for watersports, Duratex material is the finest, commercial grade fabric reinforced PVC available. Each Aquaglide® Platinum™ item uses Duratex material for maximum strength and durability.

The Supervolley incorporates 1000d fabric fused with layers of 28 oz PVC.

HA Weld™

Hot air-welded seams for high quality and outstanding durability.

'HA' or Hot Air Welding is the process used to fuse Duratex material seams for years of trouble-free use. HA welding produces clean, strong seams with no unsightly glue marks or splits.

Interloc™

Heavy duty stainless fittings and convenient Interloc straps for modular use.

Aquaglide Platinum items connect to one another using the Interloc system. Soft webbing offers some flexibility, while remaining tough enough for years of service.

Only Interloc blends the convenience of a cinch with the security of a locking connection.

EN Compliant

This product complies with all DIN EN 15649 product safety standards.

DIN EN 15649 is a rigorous product safety standard designed specifically for floating leisure items.

Dropstitch™

Combines the durability of Duratex with the lightweight strength of Spectra™ fibers to make a very high-tech, low-profile inflatable floor.

UV Block™

Materials specially treated for high resistance to the sun's damaging rays.

Each Aquaglide Platinum item is treated with UV Block, the highest grade 3-year UV coating available. While we recommend periodic maintenance with additional UV coatings, there is no substitute for having UV Block incorporated into the material right from the start. UV Block, for years of trouble-free use.

Halkey-Roberts type fitting

A specific, notched nozzle suited for Halkey-Roberts valves used on inflatable boat and commercial park products. 7/8" (21mm) OD

3 Year

Limited Warranty against any and all manufacturing defects.

Each Aquaglide Platinum item offers a warranty covering any and all manufacturing defects for an extended period of time. The Supervolley includes a 3 Year warranty for recreational use, a 1 year warranty for commercial use.

HD Grip™

Incorporates heavy duty molded handles for convenient boarding and/or transport.

Heavy Duty molded handles allow for convenient boarding and/or transport.

RF Weld™

Radio frequency welded seams for high quality and outstanding durability.

'RF' or Radio Frequency Welding is the process used to fuse Duratex material seams for years of trouble-free use. RF welding produces clean, strong seams with no unsightly glue marks or splits.

Soak

Incorporates a soaking feature.

Play, splash or lounge in this uniquely contained soaker area. Perfect for younger children, or as a secluded getaway away from the crowd.

Lifetime Warranty

Lifetime Warranty against any and all manufacturing defects for recreational use.

Bounce

Incorporates a bouncing feature.

Regardless of your age, few things capture childlike enthusiasm better than bouncing with wild abandon. Bounce for the sky on this Platinum item.
