Made using Studio 180 Design's V Block®
and Split Rects® tools

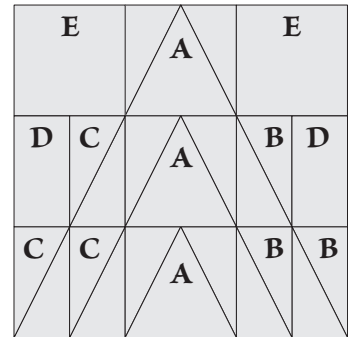

BlockBusters 2020 #54

Difficulty: ★★☆☆☆

All the instruction you need to make the units required for this block came with your V Block® and Split Rects® tools. There are charts, step-by-step graphics, and directions. Use the chart to find the information you need for the finished size of the units you want to make, follow it through to find what you need to cut to make those units. Then work your way through the instructions.

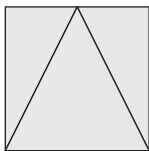

This block is made up of just V Block and Split Rects units with color placement being important. When making your V Blocks, realize that you have two that are made with colored center triangles and side triangles and one unit that has a colored center triangle and background side triangles, so pay attention to what you are cutting from each color that you pick for your block.

With the Split Rects units, you are making 3 units that slant from the lower right to upper left (Type #1). Two of the units are your background and colored fabric, and one unit is made of two colored fabrics. You also need 3 units that slant from the lower left to upper right (Type #2). Two of the units are your background and colored fabric, and one unit is made of two colored fabrics. Since you need to make both Type #1 and Type #2 units in multiple combinations, pay attention to the position of your strips when cutting your elongated triangles.
