BlockBusters

Mixed up Chevron

Made using Studio 180 Design's Corner Pop® tool

BlockBusters 2021 #63

Difficulty: ★★☆☆☆

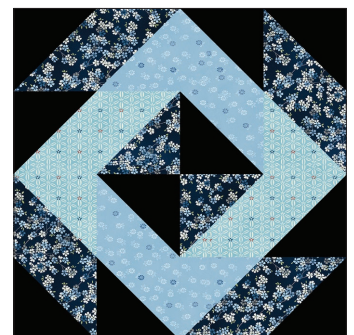

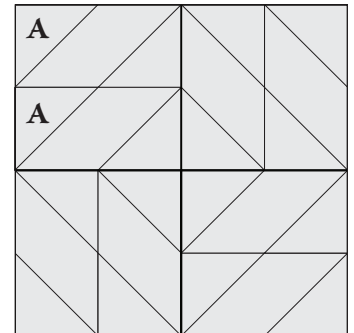

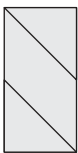

All the instructions you need to make the Corner Pops on the base shape required for this block came with your **Corner Pop®** tool. There's a chart that tells you what size squares to cut, step by step graphics, and directions. Determine the finished size Corner Pop you are using for your chosen block size and then work your way through the instructions.

This is a nice easy block for you to practice using your **Corner Pop®** tool. Start by cutting your base rectangles the size listed in the chart below. The finished size listed in the chart is the finished size you will use when referring to the instructions to determine what lines on the tool to use and what size Replacement Triangle Square you need to cut.

Think about your pressing as you make your corner popped base rectangles. Some seams will match and depending on how you press they could be bulky. So take a few moments before you start pressing to lay out your pieces and check on which would be the best direction to press your seams so that you will have a nice flat block in the end. If you don't want to worry about pressing, you can press all the seams open. The choice is yours.

Unit Summary

Unit A

Cutting Chart

Unit	# of units required	6" Block	9" Block	12" Block
A: Right Popped Rectangle	8	2" x 3½" base rectangle	2¾" x 5" base rectangle	3½" x 6½" base rectangle
B: Corner Pops – 16 total Finished Size/ Cut Away Size on Corner Pop® Tool / Corner Trim Down Line		1½"	2¼"	3"
