# BlockBusters

## She Bear

Made using Studio 180 Design's Split Rects®

BlockBusters 2016: #13

Difficulty: ★★☆☆☆

All the instructions you need to make the Split Rectangle units required for this block came with your Split Rects® tool. There's a chart, step by step graphics, and directions. Determine the finished size you are making and then work your way through the instructions.

This Simple combination of squares and Split Rects units give you a unique variation of the Bear Paw block. In this block you will make eight mirror image pairs of Split Rects units, making 8 units that slant from the lower right to upper left, type #1, and 8 units that slant from the lower left to upper right, type #2. Since you need to make mirror image pairs you will want to pay attention to the position of your strips when cutting your elongated triangles. Each Paw gets two type #1 and two type #2 Split Rects units. You can use many different color combinations with this block; just make sure to pay attention to your strip orientation so that your colors come out where you want them.
