# BlockBusters

## Majestic

Made using Studio 180 Design's Wing Clipper® I, V Block®, and Square Squared® tools

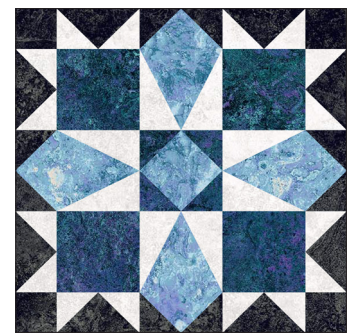

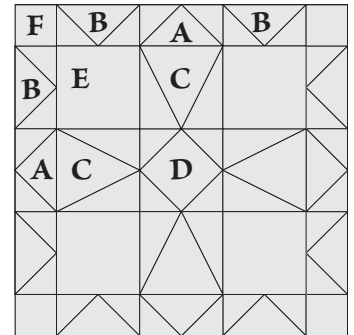

BlockBusters 2022 #68

Difficulty: ★★★★★

All the instruction you need to make the units required for this block can be found in the instructions that came with your **Wing Clipper® I**, **V Block®**, and **Square Squared®** tools. There are charts, step by step graphics, and directions. Use the chart to find the information you need for the finished size unit you want to make. Then work your way through the instructions.

For this block, you will need to make one set of Flying Geese so that the large triangle (made from the large square) matches the center triangle of your V Block unit and the small squares are the fabric that you have chosen for your background. Two other sets of Flying Geese are also needed, which are constructed using your background fabric and another fabric color. In these, make sure that the large square is your background color and the small squares are the other color chosen.

When you construct your V Block and Square Squared units, you will want to consider pressing the seams open. It will make matching the V Block units to the Square Squared and Flying Geese units easier in the final construction of your block. Have fun with this block as there are so many different ways that you can place your fabric to get different looks.
