BlockBusters

Junction

Made using Studio 180 Design's Corner Pop®,
Tucker Trimmer® I or II, and Wing Clipper® I Tools

BlockBusters 2023 #82
Difficulty: ★★★★★

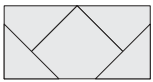

Everything you need to know to make the units required for this block can be found in the instructions that came with your **Wing Clipper® I** and **Tucker Trimmer® I or II** tools. The instructions you need to make the Corner Pops on the base shapes in this block came with your **Corner Pop®** tool. Use the chart on the next page to find the information you need for the finished size of the unit you want to make. Then work your way through the instructions. Remember to watch the videos on these tools if you need some extra help.

For this block, make your Flying Geese units first as they are used as the base shape for your Corner Pops. Then, using the finished size in the chart on the next page, you will determine what lines on the Corner Pop tool to use and what size Replacement Triangle Squares you need to cut. Using the **Corner Pop®** tool is a great way to change up the look of a block quickly.

For the Half Square Triangles, you will need to use either the **Tucker Trimmer® I** or **Tucker Trimmer® II** to trim the units down. To determine whether you need the **Tucker Trimmer® I** or **II**, look at the finished size of the Half Square Triangles. Don't be afraid to make a test block this time. Determining what corner you need to pop at what size can be a bit tricky.

Unit Summary

Unit A

Unit B

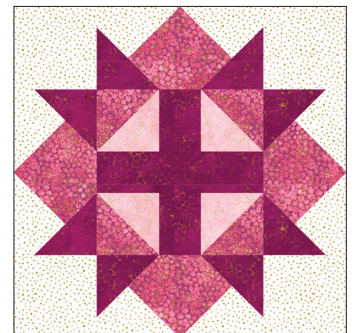

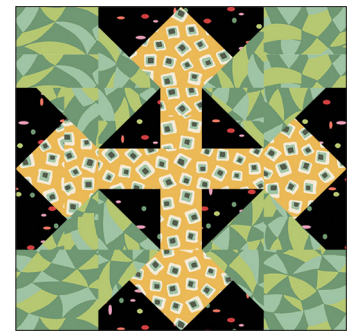

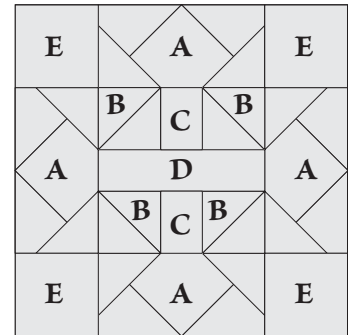

Unit C

Unit D

Unit E

Cutting Chart

Unit	# of units required	4" Block	8" Block	12" Block
A: Popped Flying Geese	4	1" x 2" finished size 1½" x 2½" cut size	2" x 4" finished size 2½" x 4½" cut size	3" x 6" finished size 3½" x 6½" cut size
