

How To Take Care Of Your Fahlo Plush

1

Give it a hug!

Hugs make everyone happier, even when you're stuffed with fluff.

2

Spot clean stains.

Accidents happen! To clean your plush, wipe with a damp cloth using warm water and mild soap.

3

Brush up.

Once bath time is over, use a brush to give your plush a good groom.

4

Start snuggling!

Let the cuddles continue while you track your real animal in the Fahlo app!
