

# FERIAN

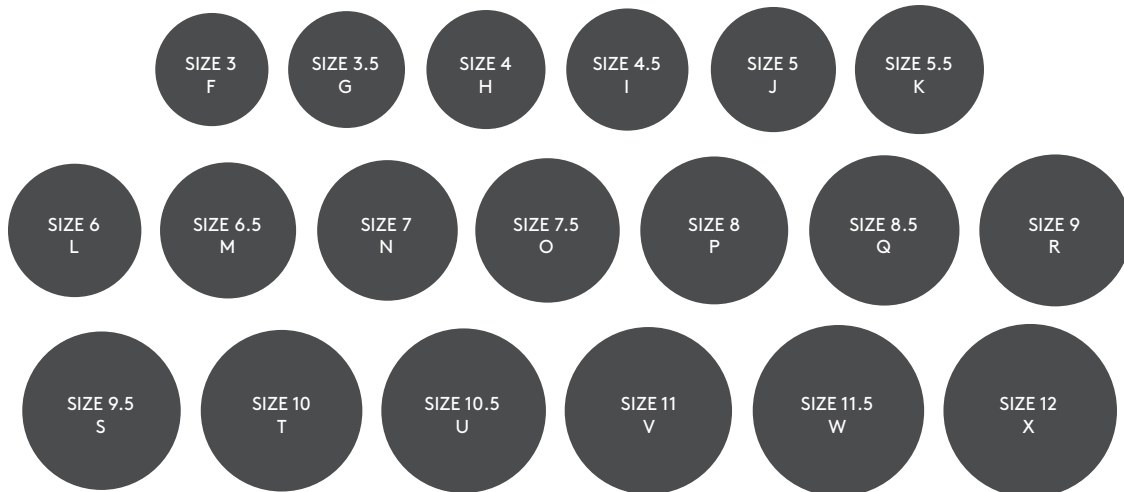

## HOW TO MEASURE YOUR RING SIZE

Please Note:

- Before printing ensure that the paper scaling is set to 'none' or 'actual size'.
- Please ensure you are printing on standard A4 paper (210mm x 297mm).
- Your sizer should measure 160mm in length.

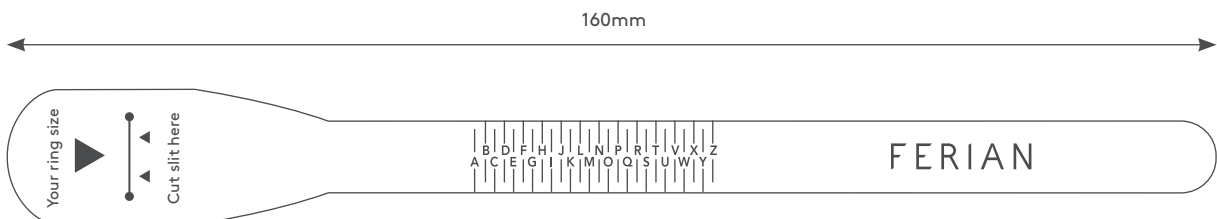

Option 1: Measure an existing ring.

- Select an existing ring that fits your chosen finger.
- Place the ring over the circles below until the inside circumference of the ring matches a specific circle.
- If your ring falls between two circles take into consideration the width of the band.  
A heavier band may require a slightly larger ring size.

Option 2: Use the ring sizer to measure your finger

- Print and carefully cut out the below ring sizer. Cut a small slit where indicated.
- With the letters facing out place the ring sizer around your finger, then slip the 'Ferian' end through the slit.
- Tighten the ring sizer. The fit should be snug but comfortable.
- The letter that appears closest to the slit is your ring size.
