

LIFETIME LIMITED WARRANTY

Havens Metal Works has a lifetime warranty on all of our sinks, and range hoods. The Havens warranty states that our sinks shall be free from defects in workmanship or materials under the condition that use and care does not exceed normal use. All dimensions are guaranteed under our warranty to not vary more than 1/16 of an inch. In no situation shall Havens Metal be liable for any damage caused to the product during or after installation. Under no circumstance is Havens Metal liable for labor or install charges or any other expense associated with the installation of the product.

In a situation where the warranty is to be exercised by the customer, a warranty request must be submitted. Upon approval of a warranty request, the sole responsibility of Havens Metal is exchange or repair of a defective product.

Havens Metal does not warranty the patina finish, or lacquer as finishes may age naturally over time. With any questions on how to care and maintain a Havens Metal sink, refer to the Care and Maintenance guide.
