

Hi  K9

THE ORIGINAL

# OUR ORIGINS

The Original...or the Original KLM Ltd to give us our full title is owned and run by myself Katherine, my husband Lee and our amazing daughter Molly (Hence the KLM in our name).

Being brought up around and having worked with animals, we realised there was a gap in the market for quality and practical products for dogs and their owners, so we set up in 2007 and haven't looked back since.

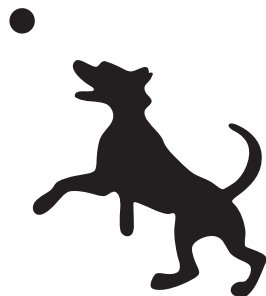

Based in Manchester with our cat Poppy and four whippets, Pebble, Slate, Gneiss and Marble. We love nothing more than escaping the city each weekend to attend Game fairs, county shows and dog shows, meeting our customers and their four legged friends.

We are constantly designing new products to add to our range and strive to provide our customers with new, practical, quality items with the Original...twist.

As a family run business we thrive on your comments, suggestions and input. Wherever practical we try to conserve the planet and energy, sourcing and packaging our products accordingly.

Please enjoy The Original...and all its products.

Katherine, Lee and Molly McKay.

\*Voted best bed for working dogs by  
**The Sporting Gun** 2010

## THE HIK9 BED

Many of us seem to have an idea of what a dog bed should look like – usually it is soft, padded and is placed directly onto the floor. Our beds are a little different from conventional beds and in our opinion it is this that makes dogs love them. Pet owners love them too as they are so easy to clean, deter infestations and don't get the smells we associate with dogs and their beds.

A fabric top suspended over a metal frame, our bed creates a very comfortable place for your dog to sleep, stretch and spend hours contemplating life! Unrestricted by sides your dog can choose to nest and curl up or stretch right out. Covers are replaceable and available in two different fabrics: a breathable mesh for dogs that get wet, dirty or overheat, or a solid fabric that is smoother to the touch and prevents draughts. To clean, machine wash, jet wash, disinfect or wipe down - it couldn't be simpler.

The cover moulds to your dog's body ensuring there are no pressure points that can develop into unsightly and uncomfortable sores. No heat is conducted from your dog's body ensuring it is kept warm and comfortable with no condensation gathering underneath the bed creating smells, mildew and damp bedding. It is these features that make our beds especially good for dogs with arthritis and joint problems. The mesh cover is also perfect for dogs that are suffering with skin allergies as the bed can be cleaned with ease; it also allows air to circulate and any debris to drop through the open weave.

All beds are fully collapsible and come in their own bag so are great not only at home but when travelling, holidaying or during times when your dog may need to be kenneled. The metal frame is rust proofed for long-term protection then powder coated for improved appearance and enhanced protection meaning it can be left outdoors if required. It comes as standard with black plastic feet and will not harm your carpets or solid floors.

We also produce a range of accessories to complement your bed.

# OUR COVERS

## MESH

Our mesh covers are made from a tough plastic coated polyester and have the following advantages:

- Breathable, Air flow allows dogs to regulate body temperature
- Dust and hair drops through the mesh
- Very easy to clean and can withstand chemical cleaners such as bleach and trigen if required
- Dries almost instantly so can be back in use within minutes
- Can be left outdoors as water drains through the open weave
- Great for dogs that get dirty and wet on a regular basis
- ideal for dogs with allergies as stops dust mites from breeding in bedding
- Continance issues - puppy training pads can be inserted between the double layer mesh catching any accidents
- Good for dogs with longer coats as they appreciate the air flow
- Great for dogs that get dirty and wet on a regular basis
- Doesn't harbour smells

## CANVAS

Our canvas covers are made from a polyester fabric backed with a waterproof coating and have the following advantages:

- Doesn't allow air or water to pass through
- A softer feel fabric
- Dust hair and dirt are collected on top and wont stick to the fabric but can be brushed off easily
- Machine washable at 40 degrees
- Stops unwanted draughts

All covers are available in a wide range of colours, please contact us or see our website for details at [www.hik9.com](http://www.hik9.com).

# OUR ACCESSORIES

## FEET

Set of 4 heavy duty feet for the hik9 bed. Give extra grip and stability on uneven floors, ground sheets, or for heavier dogs. Gives greater protection to the frame if you are intending to keep your bed outside.

Set of 4 standard replacement feet for the Hik9 bed.

STANDARD REPLACEMENT FEET

HEAVY DUTY RUBBER FEET

LEG EXTENSION KIT

## BUNK LEGS EXTENSION KIT

The leg extensions kit consists of 4 extensions legs, 4 heavy duty feet, 1 connecting clip and jointing tape. They work with our small, medium and large frames, allowing you to create a space saving bunk or a high level bed, any size bed can be used for the bottom bunk.

Size one will extend the height of your bed by 32cm.  
Size two will extend the height of your bed by 42cm.

BUNK LEGS above standard bed

# OUR TOPPERS

## COSY SLEEVE

A soft sleeve made from a deep pile veterinary bedding, the sleeve pulls on to the bed easily and offers the following advantages:

- Stays fixed on the bed until you take it off, great for dogs that drag soft bedding around.
- Veterinary bedding is naturally hypo-allergenic and deters infestations
- High wicking properties, allowing damp dogs to dry off quickly
- Can be washed on a high temperature
- Material will dry quickly
- Our veterinary bedding is produced with a special coating to allow enhanced breathability
- Good for dogs that like to nest and dig at their beds before settling
- Breathable mesh backing which will not restrict air flow
- Can also be useful in deterring chewing as many dogs don't like the texture of veterinary bedding in their mouth.

# OUR TOPPERS

## PADS

A reversible polar fleece pad that attaches onto the HiK9 bed for dogs that like a little extra comfort on their HiK9 bed.

- Fixes on to the HiK9 bed frame with quick release clips on all four corners allowing it to be removed easily
- Fully machine washable
- High quality compressed padding which is stitched into place stopping clumping when washed
- Attaches to bed to avoid slipping or sliding around
- Gives extra cushioning for those dogs that need it
- Can also be used in crates and cages

## SNUGGLE TUNNEL

A fleece snuggle tunnel that attaches on to the HiK9 bed. Ideal for dogs that like to burrow inside their bedding or be covered by blankets.

- Fully machine washable and quick drying
- Lightly padded to give extra comfort and warmth
- Hood stays upright allowing your dog easy access
- Good for convalescing dogs that like extra privacy
- Can be used in crates and cages

# OUR TOPPERS

## SHEEPSKINS

Beautiful, machine washable merino wool sheepskins. Our sheepskins are available in a wide range of colours and will not run when washed. Ideal for your home, in the car, caravan, motor home or great with the HiK9 beds.

The natural properties of wool have been recognised for hundreds of years. As wool naturally traps warm air within its fibres, this helps to keep temperatures stable and pets warm and cosy. The fibres also absorb moisture, which keeps pets healthier and cooler. Keeps your pets warm in winter and cool in summer, the softness of the wool having a calming and soothing effect.

For a wide range of colours, please contact us or see our website for details at [www.hik9.com](http://www.hik9.com).

## VETERINARY BEDDING

We can supply cut pieces or rolls of veterinary bedding in various colours and weights with a choice of the following backings:

- Soft back
- Green back
- Anti slip back

# TESTIMONIALS

## WHAT OUR CUSTOMERS HAVE TO SAY

*Received my extra large bed yesterday and the dogs love it, especially my older dog who's getting a bit stiff in the back end. Excellent, can highly recommend these beds. Simple idea but ingenious at the same time.*

*Great beds, since using them my Danes joints are so much better and no more pressure points on their elbows.*

*Bought my GSD a bed from here as she has lots of allergies. Staff fantastic and very, very helpful, cannot fault them or the bed.*

*I love these beds! I've got 6, 3 indoors and 3 out. They're hard wearing, washable and the covers are replaceable when my terriers manage to have a nibble. The only beds I've ever found that survive the attentions of my Patterdales.*

## WE ALSO SUPPLY MANY PROFESSIONALS, BOARDING KENNELS AND RESCUE CENTRES

### Halo Dogs

*Halo Dogs has been using The Original Hik9 raised pet beds for a number of years. Not only are the beds comfortable, durable, easily cleaned and hygienic, but the range and quality continually improves and expands meaning we offer our four legged guests the best quality available*

### Ayrshire Dog Care

*What can I say about The Original Hik9 raised beds without making them appear too good to be true! I can honestly say the beds have been a triumph, so much so that I have placed various orders since, both for my business and for clients who were very impressed when they saw them here. They report that the beds are equally popular with their dogs at home!*

# FREQUENTLY ASKED QUESTIONS

## IS THIS DOG BED INDESTRUCTABLE?

No! To some dogs nothing is completely indestructable, however, Hik9 beds stand up to a lot of wear and tear and we receive lots of positive feedback from customers stating that ours is the first bed their dog hasn't eaten! We supply replacement covers so it's never the end of the world if your dog does have a nibble every now and again. We can also make chewguards to order, please contact our office for further details.

## WILL MY DOG LIKE IT?

We've never met a dog that doesn't like to get on our beds, sometimes it may take a little encouragement but generally they take to them like a duck to water (or should that be dog?) Dogs in the wild will always sleep up off the ground as it can be cold, damp and is also where parasites breed.

## CAN I LEAVE MY BED OUTSIDE?

Yes, the frame is rust proofed before the powder coating so can be left outside whatever the weather. We would suggest the mesh cover which will allow any water to drain through and heavy duty feet to give added protection to your frame.

## HOW LONG DOES A COVER LAST & CAN I GET A REPLACEMENT?

Yes, covers are replaceable. Generally we expect a cover to last at least 12 months, although most people go for several years without needing to replace them.

## CAN I MAKE BUNK BEDS OUT OF ALL SIZES OF HIK9 BED?

No, our leg extensions fit inside our small, medium and large frames only. We use a thicker steel on our XL and XXL frames so the extensions will not fit. Any size of bed can be used for the bottom bunk.

For a longer list of frequently asked questions please see our website for details at [www.hik9.com](http://www.hik9.com).
