

# HYDRO TABS

## SQUEE-G Window Wash Tablet

Better Chemistry • Better Products

CONCENTRATED EFFERVESCENT TABLET TECHNOLOGY • PRE-MEASURED DOASGE  
NO DISPENSER REQUIRED • DESIGNED FOR COMMERCIAL & INSTITUTIONAL USE

**ECONOMICAL TO USE** The unique tablet chemistry incorporated into SQUEE-G allows the addition of more active ingredients than current tablets now on the market. One SQUEE-G tablet will make a rich blue, sudsy windshield wash solution. An economical choice for producing a premium windshield wash solution.

Tablets are environmentally friendly and 100% biodegradable.  
Tremendous space saving value.

**WHERE USED** Windshields and all glass surfaces.

**HOW USED** Simply drop one SQUEE-E tablet into island squeegee wash container and fill with water. Tablet's fizzing action begins the dissolving process. Each tablet delivers a rich blue, sudsy solution. Apply SQUEE-G solution with the scrubber side of the squeegee applicator and scrub surface to be cleaned. dry windshield with rubber end of squeegee using overlapping strokes. One tablet will make 2.5 gallons of window wash solution.

**DILUTION RATIOS** 1 (one) "HYDRO TAB" makes 2.5 gallons of ready to use SQUEE-G cleaning solution

**ATTENTION** Keep container closed when not in use. Humidity and water will damage the tablets.
