# INSTRUCTIONS

## UNPACKING AND START-UP INSTRUCTIONS

1. Start by removing the included bag of bottle stoppers and drip tray
2. Remove foam inserts to reveal the machine
3. Carefully remove the machine by lifting it straight up out of the box  
DO NOT HOLD THE SHOTMEISTER BY THE FRONT FAUCET!
4. Place the machine in desired location with 4 inches of clearance on all sides
5. REMOVE PAPER PADDING from tap spout and inner chilling chamber
6. Before plugging in, make sure the power switch in the back is in the **OFF** position
7. Plug in, and flip the switch to **ON**
8. Insert drip tray in the lower front side of the machine

## INSERTING A BOTTLE

1. It is recommended that you place a pre-chilled bottle into the Shotmeister
2. Unscrew the bottle cap (**picture A**) and replace it with a bottle stopper (**picture B**) screwing it on tightly
3. Turn the bottle upside down into the chilling chamber (**picture C**) with the bottle stopper engaging the well (**picture D**)
4. Bottle is inserted correctly when the Jägermeister begins to drain from the bottle into the machine
5. When closing the lid, make sure to **PRESS DOWN FIRMLY** and ensure the lid is completely sealed

## POURING SHOTS FROM YOUR SHOTMEISTER MACHINE

When pouring ice cold shots from your Jägermeister Shotmeister, pull the tap handle towards you. When done pouring, push the tap handle back to the center position, ensuring the valve is closed.

**Note: If the tap handle is not completely vertical, Jägermeister may continue to flow from the tap in a slow stream.**

## CLEANING INSTRUCTIONS

1. Turn off machine and remove the bottle
2. Drain remaining Jägermeister liqueur from the machine
3. Fill empty Jägermeister bottle with warm water, install a bottle stopper, and insert into machine
4. Pull on tap handle and drain out all warm water from bottle
5. Repeat step 4 until the water exiting the machine is clear
6. Remove drip tray and tip machine towards you, raising the back a few inches, pulling the tap handle to ensure all water has drained from the machine
7. Make sure to clean all used bottle stoppers

**Note: Cleaning should take place after machine has not been used for an extended period of time, or once every 6 months.**

### IN CASE OF FROST

It is normal for frost to appear in the freezer. To remove the layer of frost, simply turn off the freezer and let it sit while the frost melts. The frost will automatically drain out of the freezer. It is recommended you place a towel under the freezer in case of seepage.

It is normal to experience a layer of frost up to 1/8" inch thick.  
**ALWAYS CHECK TO MAKE SURE THE LID IS CLOSED FIRMLY**

**RETAIN YOUR ORIGINAL BOX AND PACKING  
MATERIALS FOR A PERIOD OF 1 YEAR.  
THESE ITEMS ARE NEEDED IF YOUR FREEZER  
REQUIRES SERVICE OR REPAIRS.**

For information on requesting service or repairs, visit:

**WWW.TAPMACHINE.COM**

# IMPORTANT!

## NOTICE

The Jägermeister® Shotmeister is not intended for use by persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning the use of the Jägermeister® Shotmeister by a person responsible for their safety.

**Children should not operate the Jägermeister® Shotmeister in any instance.**

**The Shotmeister's intended use is to dispense Jägermeister Herbal Liqueur and should be operated in accordance with the laws and regulations of the location in which such use takes place.**

**When setting up your new Jägermeister Shotmeister, place it on a level surface, indoors, with 4 inches of space on all sides to allow for adequate airflow from the refrigeration system.**

**DO NOT PLACE MACHINE ON AN ANGLE.  
FAILURE TO PROVIDE ADEQUATE CLEARANCE  
AROUND THE MACHINE WILL RESULT IN  
IMPROPER CHILLING OR POSSIBLE DAMAGE  
TO INTERNAL COMPONENTS.**

# **WARNINGS AND IMPORTANT NOTICES**

## **DANGER**

### **ELECTRICAL SHOCK HAZARD**

Can cause injury or death. Service should only be performed by qualified service personnel. Before attempting to perform ANY maintenance, UNPLUG unit. Use extreme care during electrical circuit tests. Live circuits may be exposed.

**THERE ARE NO USER REPLACEABLE PARTS OR USER ADJUSTMENTS INSIDE THE MACHINE.**

**IF THE POWER CORD IS DAMAGED IT MUST BE REPLACED BY THE MANUFACTURER, AUTHORIZED SERVICE AGENT, OR SIMILARLY QUALIFIED PERSONS TO AVOID A HAZARD.**

## **WARNING**

**DO NOT** introduce water or other fluids with a freezing temperature above  $-10^{\circ}\text{F}$  while the POWER switch is in the ON position.

Failure to do so may result in the unit freezing, causing internal damage.
