

**Making No. 4 / LINES errata**

***Fall Mountain Hooked Rug Page 14:***

A clarification:

This particular rug was hooked in a six cut, however because this design is so abstract with relatively large expanses of each color, the size of the strip is very much a flexible thing.

So if a hooker wants to hook really large and chunky with 8 or 9 or even bigger, that's fine, or wanted to go really small and perhaps even shade the waves, that is possible too.
