# GUIDING COMPASSES

*The generational blessings that my late grandmother, Ruth, passed on to me define how I live my life. Her directional principals of love, faith, generosity, and joy are represented by the four points of a compass. My mother, sister, and I carry her legacy forward by how we engage in our relationships with self and others. As the matriarch of our family, she instilled direction and guidance by way of doing and being, rather than telling.*
