

Protect⁺

We all want the older people in our lives to live safely and with independence. With age the risk of trips and falls increases. The potential for medical conditions which place our loved ones in vulnerable positions is a source of concern. The Protect+ is designed to safeguard the most vulnerable while maintaining their active independence.

No Monthly Charges

No Monitoring Fees

Powers directly through the phone line

Plugs Directly Into Your Home Phone In Seconds

Allowed Number List

Program all trusted telephone numbers into the Call Blocker.

Any caller not on this list will be blocked.
