This ring size chart is in a PDF format and is provided as an aid to establishing the correct size required. It must be downloaded and printed via Acrobat reader at 100% size on A4 paper size.

To verify this is correct, the line beneath should measure 125mm in length when printed out.

Please place a ring that you are comfortable with over the circles and select the circle which is *just visible in its entirety* inside your ring, then read off the size required.

125mm
