REFINED CLASSIC
Dizier card table, to the trade; alfonsomarina.com.

NEW TO MARKET

Timothy Whealon's RUG COLLECTION

↑
The flooring in this **Renaissance-era painting** inspired Whealon's handwoven geometric design.

→
These manicured **European hedges** became a dynamic silk-and-wool pattern.

ADD AN ALMOST lyrical artistry to this modern classicist's reputation. In his new collaboration with luxe maker Patterson Flynn Martin, interior designer Timothy Whealon debuts a collection of rugs as delightfully diverse as they are finely detailed. "I love finding a rug that uses a new weaving technique or pattern that I've never seen before," he says. "So in my collection, seeing the subtle color striations and the hand that goes into each was important," adds Whealon of designs that range from a Bessarabian kilim-inspired carpet to a natural abaca rug inspired by a playing card. Nice hand, indeed.
