About My Gift Maker

We now live in a subscription economy and relationship centric world. And to achieve this, it's about creating customisations (not generalisation) and memorable experiences (not just products and swags). #allaboutrelationships

So here at My Gift Maker, we help businesses and busy individuals like you **strengthen relationships** and elevate your gifting experience by curating artisanal and purposeful gift sets that gives your recipients a luxurious yet personable experience.

We have worked with organisations to curate and customise bulk orders for their gifting event. Some of these notable organisations are Thye Kua Hwan Moral Society (THK), Singapore Islamic Scholars & Religious Teachers Association (PERGAS), Media Development Authority Singapore (IMDA) and Masjid Kassim.

Our Story

My Gift Maker was created by Shiella, a former secondary school Science and Geography teacher and a mother of 3. Craft making, home organisation & design and creating children's activities has always been her outlet of creativity and a therapy for her and even her kids.

On the last day of her work, she decided to create personalised gift sets for her colleagues. Her colleagues were blown by her sincerity and the beautiful gifts put together, and encouraged her to make the best of this. That is when she decided to embark on her journey with My Gift Maker, with her ex-colleagues being the very first few clients. From then on, she went on to help many stressed-out companies and individual gift givers recreate the joy she experienced when gifting others. Since then, she has made it her mission to continue her flawless execution of gifting to help many others.

CORPORATE EVENTS

Company retreat events, new programme launch, workshops, annual meetings, company anniversaries are some examples of stress-filled gifting events in which we are able to do the heavy lifting for you!

Why You Need Us!

We are, without a doubt, uniquely different from many gifting services out there. Here are some reasons why you truly need us!

High-end, Modern, Uplifting Feeling

Presentation is a big deal to us. We like dreaming up gift packaging that perfectly and **AESTHETICALLY** matches your theme or company vibe - all without that corporate logo printed pen or mug that go out of style.

Easy to Carry, NOT Bulky

Unlike traditional hampers, the items are presented **NEATLY** in a gift box. If you choose to distribute them during staff meeting or in the office, it will be so much easier for them to carry it back home. Plus, it takes up way **LESS SPACE** than tall, bulky hampers.

Earth-friendly & Resuable Packaging

We source our magnetic gift boxes from businesses that are **RoHS** compliant and use materials that are **FSC** certified. Our gift boxes are completely **REUSABLE** and can be used to organise things around the home.

Excellent Communication & Service

We pride ourselves in our ability to communicate with our clients fully. We offer discovery call and will communicate our recommendations clearly. We will work through design revisions, if any. We want to make sure that we get it 110% right for you.

Why You Need Us!

Personalised notebook featuring name of event for each participant to use during discussion at their meeting.

Purposeful & Targeted Gifting

We put together gifts that are beautiful, thoughtful and **INTENTIONAL** for your targeted recipient. Think: work desk revamp set for office staff to start the new year, mid-year nourishing snack box as appreciation gift for employees to keep going or a baking kit for your staff to enjoy this as an activity at home for the company's family day - all in an effort to **STRENGTHEN** staff/client **RELATIONSHIPS**.

Customised According to your Budget

Working with you to create a perfect combination of gifts at your budget is our speciality! Whether you want simple items in greater quantity or branded items in minimalist style - just let us know and we'll do the magic.

Features YOUR Company Brand

Your business logo will be printed and presented on the gift tag and notecard message - to show your recipients that the gift comes from **YOUR** company and not ours. Our name card will be tucked away in the gift box.

Stress-free Gifting

You should enjoy gifting as much as your recipients enjoy receiving it! Our full gifting service includes the initial conceptualisation up to the final doorstep delivery - we will handle everything from start to finish so you can sit back and **RELAX** while we do the heavy lifting.

Visual Portfolio

Here's how we have helped our clients make a statement and elevate their company's gifting game - by creating gifts that reflect their brand while still making sure that it feels personal and relatable to the people that are important to their business.

Client: Thye Hua Kwan Moral Society

Objective:

THK wanted to gift their mummy clients and needed a personalised gift set to thank them each of them. They opted for our full gifting service where each gift box was delivered to their client's doorstep. At the end of it all, not only did their recipients give raving comments and loved it so much, we also received a referral at our end.

Our client's words:

"The gifts are absolutely amazing. We've received some heart warming feedbacks from our clients. My colleague likes the MFL (Mummies for Life) gifts that was recently prepared. Bridging her contact over, her email is included in the CC."

Client: Ms Ani Ahmad

Objective:

Our client received an award from her company and wanted to thank her colleagues/teammates who have worked alongside her. She truly felt that her recognition would not have been possible without their awesome support.

Our process:

Ms Ani engaged our full gifting service - we designed a gift set that meets her budget. Each set includes purely food items for her teammates to indulge during their snack break. To complete the gift, we designed a coordinating custom thank you gift tag bearing her name. A minimalist and exquisite personalised touch!

Our client's review:

"Awwwww, sooooo pretty! My teammates happy seh. They said so pretty!" Her recipient said "Ani!! What a lovely gift!! The whole package is beautiful!!"

Client: Urban Motors Pte. Ltd.
Tai Huat Pte. Ltd

Objective:

Urban Motors wanted to gift the companies they have worked with for Hari Raya and came to us to elevate their gifting - they requested for their branding to be reflected, but wanted it urgently and fast.

Our process:

So they selected a gift set that was already available in our store - our festive predesigned microcosm of Hari Raya in a gift box. We are also a fan of making gifts as impactful as possible, and that you stay on your client's mind. So we know a message on a notecard bearing their company logo will help their clients remember them for their gift. But what made the gifting an exciting experience from the start is how the items were beautifully packaged from the outside to the inside. We know this for sure as our client excitedly says "...thank you for the lovely packaging!"

Client: PERGAS - Singapore Islamic Scholars and Religious Teachers

Objective:

PERGAS wanted to gift their staff to thank them, to let them know that they are proud to have each other and to appreciate their efforts, particularly after a challenging past 2 years scaling through uncharted path due to the pandemic.

Our process:

So we curated a gift set that matches their organisation colours by keeping it green and white. All items are coordinated to the purpose of gifting and nestled in a deluxe magnetic flap gift box with to achieve a modern look that matches a forward-looking organisation. To ensure that the message is clearly put across, we finished off the gifts with a custom branded message card that includes a very touching letter from the director.
