FEATURES

AN EXCEPTIONAL FIRE

The Elegance® series offers an exclusive combination of aesthetics and technology. For instance, Soapstone has no equal for heat management. It absorbs 15% more heat than firebrick and radiates heat 5 times more than firebrick. This increased efficiency is also the most beautiful to look at inside the firebox. It feels and looks rich!

HEATING COMFORT

The Elegance® series features a unique patented air control system. This is an important detail when it comes to a wood fireplace. It allows you to slow down the fire to as low as 0.8kg per hour. It will extend burntime and generate heat at a more even rate. When choosing a wood fireplace, make sure it truly has this type of control over the fire!

Watch how it works:

www.ambiancefireplaces.com/wood-fireplaces

The Elegance® series provides heat generously!
You may want to take advantage of it by sending heat to other parts of your home.

Option 1

Use the Hot Air Gravity Kit. This option works without electricity. Hot air will rise naturally and disperse the heat to a room close by. This option is required for a 'clean face' application.

Option 2

Forced Air Kit: This heatactivated fan will force the heat to travel further away from the fireplace. It can even be directed to the basement. This option is more efficient but requires electricity.

Elegance 40 Wood Fireplace with arched door and clean face. Showcasing the Ambiance Snow Drift Stones.

A piece of Timber really adds value to a fireplace mantel. With fireplaces becoming more and more efficient, clearances to combustibles have increased. Too many times, having a piece of wood above the fireplace is simply not possible. This is why, Ambiance Dealers have decided to get a solution in place. **These Ambiance Mantels are non-combustible!**

WHY CHOOSE AN AMBIANCE® FIREPLACE OR GRILL?

Ambiance® transforms a house into a home!

Ambiance® products will add elegance, peace of mind and comfort to the Soul of your home. All Ambiance® products are carefully selected and designed with your home in mind, to enrich the areas of your home where memories and life take place. The best quality and innovation are shown in the enhanced detail and features that add a little «je ne sais quoi» in our Ambiance designs.

Who are our designers? They are a network of over 300 Hearth & BBQ authorized members from coast to coast covering both Canada and USA. From Alaska to Québec and Florida to California, they know what it takes to warm up your life and use their real-world experience to design quality and innovative products for your home.

Who can sell the Ambiance® products? Only our select authorized dealers who are local professionals and who understand your local codes and standards.

A house needs a sense of Ambiance® to transform into a home.

*Ambiance®
the Soul of your home*
