I	83.5mm	3 ¹ / ₄ in

// TECHNICAL

PRODUCT SPECS

Supply voltage:	220-240V AC
Rating power:	60Hz 1500W
Fuse rating:	13 Amp
Heating elements:	1500W
Lighting:	LED

PRODUCT FEATURES

- Full thermostatic control
- Timer control options
- Down lighting
- Remote control
- Three fuel bed options:
Forest View, Slate View, Crystal View
- Three installation options
- Three different fuel bed colors (blue, orange, pink)
- 6' cord outlet included

// NEW FOREST 1600 ELECTRIC FIRE

Information Sheet – Install Options

// THREE-SIDED

A Raised hearth offers both the left and right hand sides open within a constructed chimney breast. We have shown the fire (left) with a raised slate hearth to compliment the fire. This design offers a modern approach on a classic arrangement.

// TWO-SIDED

Cornered is the option to have only one side covered up and installed into a corner section of a room where this style would suit. This can be done with either the left or right side of the fire to be covered – creating a more dramatic room composition.

// FULLY RECESSED

Fully Recessed creates a more prominent face-on view both sides can be covered by fully-recessing the fire into the chimney breast. This installation method adds perceived width to any room.
