Radiant
Gas Fireplaces

THE SCIENCE OF WARMTH™

Since 1890, the Valor family has been pioneering radiant heat technology that generates constant, comfortable warmth within your home.

RADIANT HEAT

We put radiant heat into every fire, the most comfortable warmth we know. You can feel it.

REALISTIC LOGS

High definition, low mass fiber ceramic logs heat up and glow quickly, radiating warmth.

HEATSHIFT™

Select the finish you want, knowing that your artwork, TV and construction materials stay cooler and protected.

SAFETY

Our fires are put through rigorous safety testing in our in-house CSA approved lab.

Proudly made
in North America

CONVECTIVE HEAT

Convective heat is the secondary heat our fireplaces produce, redistributed thanks to HeatShift.

ENHANCED FLAME

Our V-Class burners create realistic, soothing flames and ambient glowing embers that radiate heat better than ever.

EFFICIENCY

Radiant heat and zone heating technology are up to 30% more efficient than central forced air systems.

ADJUSTABLE HEAT

Valor 10 remote control adjusts flame for constant, even warmth without having to cycle the fire on and off.

CERAMIC GLASS

Durable and robust ceramic glass improves radiant performance.

ALUMINIZED STEEL

High temperature aluminized steel firebox delivers efficient warmth, preventing rust and wear.

CLEAN INSTALL KIT (2530CIK)

LIGHT ON

Enjoy a bright fireplace all year long with the LT1's overhead lighting feature—with the fire on or off. Looks great in the summer!

Finish right up to the edge.

Sits flush with wall and fireplace screen.

LIGHT OFF

1" ADJUSTABLE TRIM (2575LFB)

Covers rough wall edges.

Fireplace screen frame sits proud of wall.

3 TRIM

The LT1 offers two types of framing: the Clean Install kit and the 1" Adjustable Trim. Ask your Valor dealer which trim will work best with your renovation.

CLEAN INSTALL KIT

The Clean Install kits allows you to tile or finish right up to a clean edge of the fireplace. The fireplace screen frame sits inside the edge and flush with the CIK and wall.

1" ADJUSTABLE TRIM

This trim covers 1" of your wall finish and is adjustable to accommodate various depths of finishes. The fireplace screen frame sits proud of the trim and wall.

ENERGY EFFICIENCY

At Valor we use recognized Canadian and US government testing methods to determine our energy efficiencies, and ensure our products perform in your home as rated. All our fireplaces are available as natural gas or propane.

LT1	NG	LP
EnerGuide	70%	70%
High	34000	34000
Low	20000	22000
Max Output*	24446	24446

Find out more about Valor's energy efficiency:
valorfireplaces.com/efficiency

* EnerGuide ratings and outputs have been determined without a fan/blower, using the CSA P.4.1-15 test method. Certified to ANSI Z21.88/CSA 2.33 Vented Gas Fireplace Heater American National Standard. CGA-2.17-91 Gas Fired Appliances for use at High Altitudes.

HEATSHIFT

Find out more online:

IMPROVES PERFORMANCE

Harnessing convective warmth, up to 60% of fireplace heat rises and flows through HeatShift and back into the room. The remaining radiant heat emanates from the fireplace, keeping you warm.

KEEPS WALL COOLER

Pioneered by Valor, our unique HeatShift System naturally circulates up to 125 cubic feet of convective heat per minute through hidden ducts and back into the room—avoiding surface areas above the fireplace.

HEATSHIFT IS REQUIRED WITH THE LT1.

Choose from three HeatShift options, including front, side and top (hidden) outlet positions:

- The front finishing frame comes in three lengths: 30", 38" and 48".
- The side grilles offers a redirect of the heat to different areas of the room.
- The valance is discretely hidden near the top of the wall—architectural in style.

Whatever your choice, we have a HeatShift solution for you.

TOP HIDDEN VALANCE

NO ELECTRICITY REQUIRED

Heatshift circulates heat naturally using gravity and Valor product ingenuity—no need for a fan or electricity. No power—not a problem for a Valor.

DESIGN FLEXIBILITY

Run standard finishing materials right up to the fireplace surround, including drywall, wood, tile and stone. Install mantels lower than usual at a one-to-one ratio of depth to height from the fireplace surround.

CONSTRUCTION MADE EASY

Unlike many competing products, Valor fully ducts HeatShift for clean, safe air quality. HeatShift is built and designed in North America for North American homes, meeting building code requirements.

Child Proof
your remote for
safety and ease.

Accurately knows the current
temperature of your room.

Set the timer to
turn the fireplace off
up to 9 hours ahead.

Set the temperature for
specific times of the day.

Program your fireplace
to turn on and off
when you want at the
temperature you want.

The Remote Battery and Wall Switch
kit comes standard with all Valor 10
remotes. The kit lets you control your
fireplace and gives you easy wall access
to your fireplace's receiver batteries.

VALOR 10: REMOTE

Standard with the LT1, the Valor 10 interactive remote control has up-to-the-moment information on the state of your fireplace—such as temperature and other customizable settings. To find out more, go to valorfireplaces.com/remote

Learn more
about our remotes:

TAKE COMPLETE CONTROL

Increase or decrease flame height to find the perfect ambiance. Use the color wheel to find the ideal temperature setting.

PROGRAM ON THE GO

Program days, times and temperature settings to match your lifestyle. Set a countdown timer so your fireplace shuts off automatically.

CONTROL LIGHTING

You can adjust the LT1's fireplace's lighting too.

SAVE ON ENERGY COSTS

Save energy while enjoying a changing, realistic flame with ECO mode. Choose time and the percentage of energy saved is shown in the circle/leaf.

VALOR 10: APP

The Valor 10 remote pairs with the Valor 10 App so you can control your fireplace with your smartphone. To find out more, go to valorfireplaces.com/valor10
