# THE INTRIGUE® FIREPLACE

## FEATURES OF THE INTRIGUE® 42

### An Exceptional Fire

Any gas fire, when well-engineered looks great. But once you discover the Intrigue's fire, you will find no equal in the industry! The glowing embers are positioned below the log set. We've reproduced the look of a real wood fire to a degree never achieved before using gas. The gorgeous flame matches the look of much larger BTU-rated fireplaces on the market but in turn consumes less gas in the process, providing you with incredible enjoyment while performing more economically than other fireplaces.

### Heating Comfort

The Intrigue® combines radiant and convection heat providing you with one of the most efficient fireplaces on the market, it will warm your heart as well as your home.

- BTUs: 39,500 with 50% turn down
- EnerGuide Efficiency Rating: 70.9% NG and 72.4% LP
- Steady State Efficiency: 75.5% NG and 76.8% LP
- Choose between the 12-piece hand crafted log set, Glass Beads or River Rock Media

- Viewing Area 35" W x 26" H
- Providing 910 square inches of ceramic glass
- Fan system included
- Ambient light included

**Ecotel**  
Remote

# THE INTRIGUE® FIREPLACE

## FEATURES OF THE INTRIGUE® 36

### The Right Balance!

Typical mid-size fireplaces are either too shallow or way too deep. Shallow fireplaces offer very little flame and deeper fireplaces take too much space into the room. The Intrigue® 36 has the right balance!

Offering 2 inches more depth than most other fireplaces, the flame becomes much more appealing and relaxing. Still, the required depth to install it remains under 19", which makes it perfect for renovation projects as well as new construction.

### Heating Comfort

The Intrigue® combines radiant and convection heat providing you with one of the most efficient fireplaces on the market, it will warm your heart as well as your home.

### Choose Your Technology

**Option 1: Electronic Ignition IPI:** Comes with ambient dimmable lights, variable speed fan & programmable Ecotel remote control.

**Option 2: Radiant MV:** Requires no electricity, no batteries. The fan is optional.

- BTU: 19,000 to 27,000 BTU
- Energuide Efficiency Rating: 71.1% IPI and 70.5% MV
- Steady State Efficiency: 78.2% IPI and 76.4% MV
- 7-piece hand carved high definition log set
- Viewing Area: 28" W x 19.63" H

- Providing 550 square inches of ceramic glass Fan system included
- Fan system included on IPI, Optional with MV.
- Ambient lights included on IPI, N/A on MV.

A piece of Timber really adds value to a fireplace mantel. With fireplaces becoming more and more efficient, clearances to combustibles have increased. Too many times, having a piece of wood above the fireplace is simply not possible. This is why, Ambiance Dealers have decided to get a solution in place. These Ambiance Mantels are non-combustible!

AMBIANCE®  
FIREPLACES | GRILLS

## WHY CHOOSE AN AMBIANCE® FIREPLACE OR GRILL?

Fun, peace of mind, energy efficiency, innovation, custom designs and comfort control define the Ambiance® Fireplace & Grill products. Before going to the drawing board, we always consult with over 200 veteran fireplace and grill store owners and installers from coast to coast. These fireplace & grill experts are anxious to contribute their thoughts and ideas. They simply want the best product for their customers in their local market.

Ambiance is the result of the union of family owned businesses across the United States and Canada. Your local Ambiance Dealer is family owned and contributes to your local economy. For each product category, whether it is gas fireplaces, gas logs, wood fireplaces, electric fireplaces or grills, we select for each of them, the very best family owned manufacturing companies. Ambiance is the only brand in the industry that unites over 220 family owned businesses to deliver the very best products to you! From our families to yours!

### **GAS FIREPLACES STANDARD EQUIPMENT INCLUDES:**

- Innovative burner technology provides an extremely realistic ember bed and flame pattern.
- Hand carved and hand painted logs create a natural and balanced appearance in the firebox.
- Latest fire management technology includes your choice of the “standing pilot” or the “intermittent pilot system”.
- Certified and safety tested by top agencies in North America, including CSA and ANSI.
- Sold and installed by the very best network of Fireplace Stores in the country!
- Products are manufactured in Beautiful British Columbia Canada using components made in the USA, Canada, Germany and Italy.
