C	75 3/4 in	1925 mm	H	2 5/8 in	67 mm
D	22 1/4 in	565 mm	I	3 1/2 in	83.5 mm
E	16 3/4 in	424 mm			

// TECHNICAL

PRODUCT SPECS

Supply voltage:	120V AC
Rating power:	60Hz
Heating elements:	1500W
Lighting:	LED

PRODUCT FEATURES

- Full thermostatic control
- Timer control options
- Down-lighting
- Remote control
- Three fuel bed options: Forest View, Slate View, Crystal View
- One, Two or Three-sided installation
- Three different fuel bed colours
- 3-Pin plugged included

// NEW FOREST 75" ELECTRIC FIRE

Information Sheet – Installation Options

// THREE-SIDED

A three-sided install offers both the left and right hand sides open within a constructed chimney breast. We have shown the fire (left) with a raised slate hearth to compliment the fire. This design offers a modern approach on a classic arrangement.

// CORNERED

Cornered is the option to have only one side covered up and installed into a corner section of a room where this style would suit. This can be done with either the left or right side of the fire to be covered — creating a more dramatic room composition.

// FLUSH

Flushed installation creates a more prominent face-on view both sides can be covered by fully-recessing the fire into the chimney breast. This installation method adds perceived width to any room.
