

# HYALURONIC ACID BEAUTY GUIDE

## Page 1 – Proper Use of Your 72% Organic Serum

**Step 1:** Only apply skin-care regimens to clean skin, as irritation may occur if any skin-care product is applied to skin which is dirty or has not been washed clean of oils recently.

**Step 2:** Typically, a very small amount is going to be enough to cover your facial area, though more may be needed if you are using it on your arms and/or neck. More is not necessarily better.

**Step 3:** To apply, gently pat or rub onto your skin using upward motions. While our serum may be used around the eyes, do not allow it to get into your eyes.

**Step 4:** Allow your serum to absorb and dry, which will take 3-5 minutes.

**Tips and Tricks:** Hyaluronic Acid is the perfect serum for use after [Retinol-based](#) products due to its highly moisturizing properties. Where [Retinol](#) tends to dry and flake skin, Hyaluronic Acid tends to cause skin to remain hydrated longer, causing it to be the perfect Retinol follow-up.

**Finally:** While you may see results sooner, new regimens take at least 30-60 days to see full results (this is science, not marketing). Please be patient and allow your serum a natural timeframe to work with your skin.

Please [Contact Us](#) if anything is wrong with your product.

We will replace or refund your purchase immediately.
