

RETINOL SERUM BEAUTY GUIDE

Page 1 – Proper Use of Your 72% Organic Retinol Serum
Contains 2% Retinol, the international Clinical Strength standard.

Step 1: Only apply skin-care regimens to clean skin, as irritation may occur if any skin-care product is applied to skin which is dirty or has not been washed clean of oils recently.

Step 2: A little goes a long way. Typically, a pea-sized amount is going to be enough to cover your facial area, though more may be needed if you are using it on your arms and/or neck.

Step 3: To apply, gently pat or rub onto your skin using upward motions. While our serum may be used around the eyes, do not allow it to get into your eyes. (Continued on Next Page)

Step 4: Allow your serum to absorb and dry, which will take 3-5 minutes.

Step 5: Because this is a Retinol-based product, we highly recommend you use a moisturizer after application. As you may have noticed in the little red box above, Retinol is known for causing irritation and dryness, and a moisturizer goes a long way to relieve these symptoms.

Finally: While you may see results sooner, new regimens take at least 30-60 days to see full results (this is science, not marketing). Please be patient and allow your serum a natural timeframe to work with your skin.
