## Page 1 – Proper Use of Your Ultimate Daytime Serum

**PLEASE NOTE:** This bottle comes with an “airless pump, no straw” mechanism designed to keep the product from being exposed to the air, allowing every last bit to be dispensed. If you have trouble dispensing, do not open the bottle. Instead, tap the bottom against your hand a few times or insert a paperclip into the hole at the bottom, giving it a “push.”

**Step 1:** Only apply skin-care regimens to clean skin, as irritation may occur if any skin-care product is applied to skin which is dirty or still oily.

**Step 2:** A little goes a long way. Typically, a pea-sized amount is going to be enough to cover your facial area, though more may be needed if you are using it on your arms and/or neck. (Continued on Next Page)

**Step 3:** To apply, gently pat or rub onto skin using upward motions. While our serum may be used around the eyes, do not allow it to get into your eyes. Because of the strong color contained within the active ingredients, do not allow the Ultimate Serum to get on any piece of clothing.

**Step 4:** Allow your serum roughly 15-20 minutes to fully absorb and dry.

**Finally:** While you may see results sooner, new regimens take at least 30-60 days to see full results (this is science, not marketing). Please be patient and allow your serum a natural timeframe to work with your skin.
