## Page 1 – Proper Use of Your Ultimate Nighttime Serum

**Step 1:** Only apply skin-care regimens to clean skin, as irritation may occur if any skin-care product is applied to skin which is dirty or has not been washed clean of oils recently.

**Step 2:** A little goes a long way. Typically, a pea-sized amount is going to be enough to cover your facial area, though more may be needed if you are using it on your arms and/or neck.

**Step 3:** To apply, gently pat or rub onto your skin using upward motions. While our serum may be used around the eyes, do not allow it to get into your eyes.

**Step 4:** Allow your serum to absorb and dry, which will take 3-5 minutes.

**Tips:** This serum is incredibly powerful, and we highly recommend you use a moisturizer after application. This serum should be used sparingly, no more than 2-3 times per week, until you are sure your skin is used to it, to avoid irritation. As this is a nighttime serum, it should be used at night.

**Finally:** While you may see results sooner, new regimens take at least 30-60 days to see full results (this is science, not marketing). Please be patient and allow your serum a natural timeframe to work with your skin.
