Sympli launched in 2001 when our Canadian founder set out to create a style that inspires women of all ages and body types to be their most confident selves. She started with that ultimate symbol of go-anywhere freedom: the perfect white t-shirt.

Building on her success, we've grown a devoted following, not just for our unexpected design ethos, but for our quality fabrics, honest fits, and our commitment to comfort.

FOR WOMEN, TO CELEBRATE WOMEN.

Designed with women in mind: for their unique bodies, shapes, and lifestyles. As women, and as an industry, it's important to acknowledge the responsibility we all have to hold womens' body image with kindness and respect.

For years, Sympli has been a proud supporter of the Looking Glass Foundation, a local non-profit that offers a caring community of support and prevention for those suffering from eating disorders.

GIVING BACK

The Looking Glass offers a variety of programs with ranging levels of involvement. From online support, peer counselling, to full-time residential treatment; there's something for everyone, whichever stage of recovery they may be in. It's through this holistic approach that the Foundation has managed to help hundreds of individuals and their families get to the other side of this illness.

Together with the Looking Glass Foundation, we are working towards a future where every woman can look in the mirror and love themselves exactly as they are.
