Print this PDF at 100% scale (not scale to fit page). Doublecheck that the line on the right reads 1" before proceeding. Find a ring that fits your desired finger, preferably one with a fully flat interior. The correct ring size below will meet the inside perimeter of your ring. If the ring falls between two sizes, select the larger size. Alternative method: take a piece of taugt string (little elasticity), wrap that around desired finger, and use end-to-end length to compare with corresponding inner circumferences below. If you're still unsure, email info@mhisae.com.

RING SIZE CHART

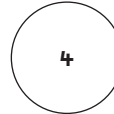

1in / 30mm

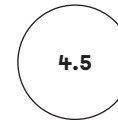

14.0mm diameter
44.2mm inner circumference

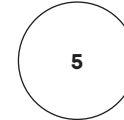

14.5mm diameter
45.5mm inner circumference

14.9mm diameter
46.75mm inner circumference

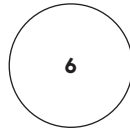

15.3mm diameter
48mm inner circumference

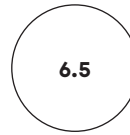

15.7mm diameter
49.3mm inner circumference

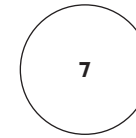

16.1mm diameter
50.6mm inner circumference

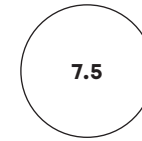

16.5mm diameter
51.8mm inner circumference

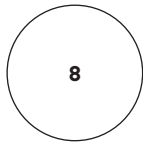

16.9mm diameter
53.2mm inner circumference

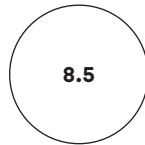

17.3mm diameter
54.4mm inner circumference

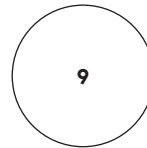

17.7mm diameter
55.7mm inner circumference

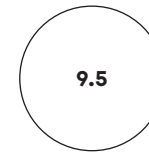

18.1mm diameter
57mm inner circumference

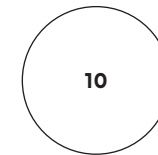

18.5mm diameter
58.2mm inner circumference

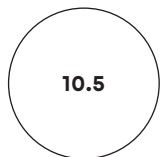

18.9mm diameter
59.5mm inner circumference

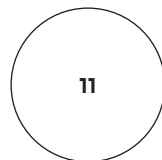

19.3mm diameter
60.8mm inner circumference

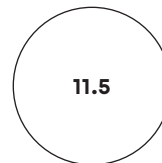

19.7mm diameter
62mm inner circumference

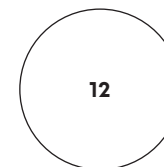

20.1mm diameter
63.3mm inner circumference

20.5mm diameter
64.6mm inner circumference

21mm diameter
65.9mm inner circumference

21.4mm diameter
67.2mm inner circumference

21.8mm diameter
68.4mm inner circumference
