LightwaveRF presenting at IOT Smart Summit London

LightwaveRF plc ("LightwaveRF" or the "Company"), the leading smart home solutions provider, announces that it is presenting at the IOT Smart Summit London, which is being held at the Business Design Centre, 52 Upper Street, London N1 on 19 and 20 September 2017.

On 20 September 2017, Andrew Pearson, CEO of LightwaveRF, will be taking part in the panel discussion, "Assessing the Routes to Market" in the smart home sector, which will commence at 10.50am. It will be moderated by Adam Simon, Chair of the Smart Homes & Buildings Association, and will include executives from O2, John Lewis and Centrica.

At 2.20pm on the same day, Andrew will be presenting at the session entitled "Retail's Role in a Fragmented, Early Stage, Fast Moving Market". He will provide insight into LightwaveRF's market strategy and how it relates to the current retail environment in the UK. In addition, he will share his views on how both education and better customer experience management are essential for retailers to succeed in the smart home market.

About IOT Smart Summit London

Smart Summit is a two-day conference and exhibition covering the Internet of Things (IoT) ecosystem and its impact on the digital society. Now in its third year, the event features Europe's leading Smart Home Summit and a further five tracks all designed to complement each other. Over 180 speakers are expected to provide a unique insight into this fast growing sector.

About LightwaveRF

LightwaveRF plc ("LightwaveRF" or the "Company") pioneered smart home automation with the introduction of the market's first Internet enabled devices in 2008. Today the Company markets a complete smart home system for lighting, heating, power and security.

LightwaveRF offers a cloud platform and an extensive range of retrofitted LightwaveRF designed and manufactured sockets, dimmers, relays, thermostats, heating, energy, sensing, monitoring and control devices. These devices are operated by conventional manual control, handheld remote, smartphone and tablet based apps. The LightwaveRF system can also be operated using Google Assistant and Amazon Alexa voice control, is Apple HomeKit compatible and provides users with dashboards to manage their smart home.

We are dedicated to making everyone's lives easier and more fulfilled through world leading smart home technology.
