(AIM: LWRF)

Lightwave Generation 2 Apple HomeKit Range in Apple UK stores

LightwaveRF plc ("LightwaveRF" or the "Company"), the leading smart home solutions provider, announces that Apple has commenced the roll out of Lightwave's next generation Apple HomeKit certified product range across its UK retail store network.

The Generation 2 product range is on sale in a number of Apple stores, including its key London locations in Regent Street, Westfield and Covent Garden, as well as Manchester, Birmingham and Reading. This follows the Company's announcement on 19 October 2017 that the new Lightwave product range was available on Apple's online store. Apple has now started placing additional orders for the Company's Generation 2 range following stronger than expected sales volumes since launch.

Andrew Pearson, LightwaveRF's CEO, commented:

"Although the Generation 2 range has only been on sale with Apple for a few weeks, the initial feedback and the placing of new orders at this early stage is very encouraging."

About LightwaveRF

LightwaveRF plc ("LightwaveRF" or the "Company") pioneered smart home automation with the introduction of the market's first Internet enabled devices in 2008. Today the Company markets a complete smart home system for lighting, heating, power and security.

LightwaveRF offers a cloud platform and an extensive range of retrofitted LightwaveRF designed and manufactured sockets, dimmers, relays, thermostats, heating, energy, sensing, monitoring and control devices.

These devices are operated by conventional manual control, handheld remote, smartphone and tablet based apps. The LightwaveRF system can also be operated using Google Assistant and Amazon Alexa voice control, is Apple HomeKit compatible and provides users with dashboards to manage their smart home.

We are dedicated to making everyone's lives easier and more fulfilled through world leading smart home technology.
